

Community Meeting for Park Master Plan Kealahou Bay State Historical Park

*Saturday, January 30, 2016
1:00pm to 4:00pm
Konawaena Elementary School*

Kealahou Bay is one of the most culturally and historically significant places in Hawai'i. The goal of this master planning for Kealahou Bay State Historical Park is to balance the preservation of the cultural values and historical sites with the recreational use of the very popular Kealahou Bay which is now a part of the park.

This meeting will be an opportunity to review the alternatives for park management and development, and provide your suggestions and comments. The findings of the studies conducted for the planning will be shared, along with the alternatives for public use, management of the resources, and proposed facilities.
