for \_\_\_\_\_  
*project title*

Chapter 173A, Hawaii Revised Statutes, requires applicants to the Legacy Land Conservation Program to seek the consultation of the Department of Land and Natural Resources, Department of Agriculture, and the Agribusiness Development Corporation with regard to the maximization of public benefits of each proposed land acquisition project. Consulting agencies may also provide input regarding other aspects of the project, including the level of legal protection on the land (e.g., whether a conservation easement is appropriate and what agency or organization ought to hold the conservation easement).

A summary of the applicant's proposed project is attached. Please respond directly to the applicant on agency letterhead, and attach a copy of this form. Please submit comments by August 14, 2015. If no response is received by this date, we will assume your agency has no comments. Please note that a lack of response from an agency (where the applicant has submitted the Consultation Request Form by deadline) will not negatively impact the consideration of the project application by the Legacy Land Conservation Commission.
