General Description – (~ 1,200 characters)

PROJECT FEATURES

Important: (~ 250 characters each bullet, but as many bullet as necessary) – public benefits gained from the protection and management of the property, includes national, regional, local scale benefits

- High quality attributes can include:
- Scenic – in the viewshed of a designated scenic area,
- Fish and wildlife habitat – important fish or wildlife habitat exists,
- Threatened or endangered species habitat – site has known habitat for rare, threatened or endangered plants and animals or includes unique forest types or communities,
- Water supply protection – contiguous riparian area, sensitive watershed lands, lakefront, buffer to public drinking water supply,

- Forestry – integral in supporting the local resource-based economy for a community or region and the tract is a foundation to maintain the economic viability of forestry for the community or region,
- Recreation – the property is a public access location or acts as a gateway to increased public access,
- Cultural – known culturally and historically significant values are located on site,
- etc.

Threatened: (~ 250 characters each bullet, but as many bullet as necessary) –

Conversion to non-forest use is possible to imminent and will result in a loss of forest values and public benefits

- Imminent
- Likely
- Possible
- Can include information about population of state, local development, or other relative factors
- This criterion reflects an estimate of the urgency of the threat of conversion. It is meant to reflect the likelihood of a conversion that would result in the loss or diminution of the assets of a larger forest area

Strategic: (~ 250 characters each bullet, but as many bullet as necessary) – The project fits within a larger conservation plan, strategy, or initiative and enhances previous conservation investments.

- A key property is regional, bi state or landscape conservation effort.
- A key property in a state plan or focused protection strategy.
- Will lead to additional conservation action in its region or area.

Ready: (~ 250 characters each bullet, but as many bullet as necessary) – Level of commitment and likelihood a project will be completed in predictable timeline.

- Items to be completed, can include
- Completed appraisal or preliminary appraisal
- Final easement or fee acquisition conditions
- Cost share commitment
- Signed option or purchase and sales agreement
- Held by a third party at the request of the State
- List of Partners involved with the acquisition
- Project readiness is a criterion that reflects the degree of due diligence applied and the certainty of a successful FLP project. It is intended to be a guide to project selection decisions. The readiness level is determined by the cumulative progression of items completed.
