

## Public Outreach:

The Hawaii Hunter Education Program is also involved in various community and educational outreach activities. These activities include:

- Hawaii National Hunting and Fishing Day
- Hawaii Historic Arms Assoc. Great Guns Show
- National Archery in the Schools Program
- Career Days at Local Schools
- Job Fairs

For information on the Hawaii Hunter Education Program's calendar of events, please contact our Honolulu office at (808) 587-0200.

## How to Register for Classes:

For additional information on our program, please contact the Hawaii Hunter Education Program at (808) 587-0200 or toll free at 1-866-563-4868.

**To register for the Hunter Education Course**, please call our Registration Hotline at (808) 887-6050 (Hawaii Island Residents) or toll free at 1-800-353-4868.

The Hawaii Hunter Education Program's schedule of classes is available at the Hunter Education website at: [dlnr.hawaii.gov/huntered](http://dlnr.hawaii.gov/huntered). New class schedules are released in December and July. Classes fill quickly, so please call early to register. Standbys are also welcome to attend classes on a first-come-first-served basis. Standbys should report to the class location at least an hour and a half on the first day of the class before the class begins to sign in on the Standby Roster.

Information needed to register for the class: full name and middle initial, mailing address, date of birth, and telephone number. You are required to present a valid photo ID upon signing in for the class.

HAWAII HUNTER EDUCATION PROGRAM

# Hunter Education Course

## Course Info:

The Hunter Education Course is mandated under Hawaii Revised Statutes, §183D-28 for anyone wishing to purchase a hunting license to hunt in the State of Hawaii. These courses are offered to the public statewide and free of charge.

Although our focus is on Hunter Education, our basic course offers so much more. It is designed to benefit anyone who has an interest in conservation, safety, and the responsible use of our natural resources. Our program goals are to:

- Reduce hunting related accidents.
- Encourage recognition for the lifetime activities of hunting and shooting sports as viable recreation activities.
- Increase the public's knowledge of Hawaii's wildlife resources and their management.
- Create awareness and sense of responsibility among outdoor users of their legal and ethical responsibilities when enjoying or harvesting wildlife, thus improving the image of hunters and hunting.
- Improve skills and techniques of outdoor resource users.
- Provide seminars, workshops, and advanced courses to offer new information on hunting and conservation topics.
- Support public shooting range development throughout the State.

## Basic Course Content:

The basic 12-hour Hunter Education Course consists of classroom\* instruction in the following areas:

- Outdoor Ethics and Responsibility
- Principles of Conservation
- Wildlife Management and Identification
- Firearms Familiarization and Safety
- Muzzleloading Safety
- Bowhunting Safety
- Hunting Rules and Regulations
- Outdoor Survival and First Aid
- Game Care

Each content area is taught through lectures and video. The basic course culminates with a written exam that tests on material covered in the lectures and videos.

A *Certificate of Completion* with certification is awarded to each person who successfully completes the course with a passing score of 75% or better. Your certification has no expiration date and is recognized in the other forty-nine states, Canadian Provinces, and Mexico.

The course and instruction are geared to meet the needs of a variety of students. We encourage parents to participate with their children in the course, and the minimum age to take the course is 10 years of age by the scheduled class date. In addition, we offer the basic course exam in a variety of languages, and we offer accommodations to students with disabilities. Please let us know of any needs you may have ahead of time, and we will try our best to accommodate you.

\*Dates, times and fees for courses are subject to change without notice.

## Advanced Courses:

Upon successful completion of the basic course, students may enroll in Advanced Courses that focus on specific topics of interest, subject to Instructor availability. Courses include:

- Bowhunting
- Muzzleloading
- Orienteering (Map, Compass, and GPS)
- Wildlife Conservation

## Hawaii Conservation and Wilderness Education Project (HCWEP):

We believe that the key to protecting our resources for tomorrow is to provide education today. And youth are key players in resource management. In recognition of this, once a year during the summer, the Hunter Education Program in partnership with Safari Club International, Hawaii Chapter holds its HCWEP youth camp for students between the ages of 10-13 at the Keanakolu Ranger Station on the slopes of Mauna Kea on Hawaii Island.

The HCWEP youth camp is held over four days and seeks to immerse students in the importance of conservation and resource management, the practice of safe firearms handling, archery, development of shooting skills, and first aid/survival techniques.

Upon successful completion of the basic Hunter Education Course, youth statewide between the ages of 10-13 may apply to attend the camp. Participants are drawn on a lottery basis.
