VESSEL AUCTION PROCEDURES

If a person wishes to inspect a vessel prior to the auction, they will need to contact the harbor where the vessel is located and make an appointment. The person inspecting the vessel will have to sign a Release of Liability Waiver prior to inspecting the vessel and a harbor agent will be present at the time of inspection.

Most of the vessels are not being auctioned with a trailer. If there is a trailer specified, then the vessel comes with a trailer attached.

These vessels and/or trailers are being sold "AS IS, WHERE IS". There are no guarantees or warranties. No vessel will be sold for less than the upset price listed in the Auction Catalog. The sale of a vessel does not include a berth or storage area. Buyers must make separate arrangements for a berth.

Under "PROVISION" in the Auction Catalog where stated that "removal of the vessel within 3 days of sale" means that the vessel will have to be moved from the present site to an offshore location, private property or a site permitted by the Division within the stated number of days.

We are not responsible for any purchased vessels once a bill of sale has been issued to the successful bidder.

Relocation of the purchased vessels to another area within any State Harbor facility without a permit, except private facilities, shall subject the vessel to enforcement action. Authorization is required from any private facility prior to relocating a vessel onto private property.

No dry land storage or work area permits will be issued for any vessels. Failure to remove the vessel within the specified time period, as stated in the auction catalog, shall result in enforcement action that may include the issuance of citation (s), fine (s), or impoundment of the vessel.
