ʻŌhiʻa Love Ornament

Instructions:

1. Cut out all pieces along outer edge of tear-drop shaped pieces and two circle shaped pieces.

2. Fold each piece in half along the length matching up the edges.

3. Cut circles out of each piece by cutting along the thin red line of folded piece that forms a half circle.

4. Match up both ends of 8-inch ribbon and tie a knot. Be sure to leave a little tail.

5. Glue the two circles together with the tail of the knot sandwiched between the pieces. Be sure that the words are upright (with the top being the knot).

5. Glue the non-printed half of one piece to the non-printed half of another. Continue to add pieces by gluing halves together. Before gluing the last piece in place, lay the ribbon loop across the top (narrower part of tear-drop shape) between the folded pieces with the knot positioned below the edge of the paper, anchoring the loop in place and placing the circle in the "cage" of the ornament.

6. Glue last piece in place and let dry.

What you need:

1 Sheet of card stock per ornament

A color printer

Glue stick

1 8-inch piece of thin ribbon (about 1cm wide)

Scissors
