

# ĪŌPAE'ULA FINGER PUPPET

PROUDLY PRESENTED BY  
THE DIVISION OF FORESTRY  
AND WILDLIFE

## INSTRUCTIONS

1. Print on cardstock or on clear transparency for a more realistic shrimp!
2. Cut out 'ōpae'ula on red edges. You may choose to cut along black dotted line around all the legs and antennae or for more experienced scissors users you may choose to cut each leg and antennae out individually.
3. Cut along the white dotted lines behind the last leg to remove the "x" area.
4. Fold your 'ōpae'ula in half only creasing the red dotted line section just before the tail. Do not crease the tail. Glue together the two sides of the belly (where white spots are) using a single line of glue along bottom.
5. Curve the two ring tabs toward each other and tape to form a ring for your finger.
