

# Hawaii Invasive Species Council

May 31, 2016 / Plant Quarantine Conf. Room, HDOA / 1849 Auiki St, Honolulu, HI, 96819

1. Call to order
2. Introductions
3. Approval of minutes from December 4, 2015 meeting
4. Review of invasive species legislative outcomes in 2016
5. Summary of support staff projects for Fiscal Year 2017
  1. Online pest reporting system update
  2. Submittal: Approving the integration of online pest reporting as a function of the HISC support program
  3. Update on Māmalu Poepoe interagency airports monitoring program
  4. Invasive species and biosecurity events as part of the IUCN 2016 World Conservation Congress
6. Updates to HISC grant proposal and evaluation processes
7. Update on interagency Hawaii Biosecurity Plan development
8. Next meeting date and topics
9. Public Comments
10. Adjournment

# 2016 Legislative Outcomes

Bill	Description	Source
HB1700	20 positions for DOH VCB, funds for HDOA risk assessment and import replacement, \$1.5M for albizia	Administration

# Staff Projects: Online Pest Reporting

- Needs identified at October 28, 2014 HISC meeting:
  - Taxonomic training module
  - Pilot implementation program
  - Delineation of illegal animal reports as being directed solely to HDOA
  - Integration with 643-PEST hotline

**REPORT INVASIVE SPECIES**  
**643-PEST**  
**643pest.org**  
**CALL OR CLICK TO PROTECT HAWAII**

- New design
- Online reporting at 643pest.org
- Database update from ASP to ASP.NET
- Taxonomic training for Facilitators
- Integration with 643-pest Hotline

# Current Status Updates

- Online reporting at [643pest.org](http://643pest.org)
  - Domain name purchased
  - Site development
- Database update from ASP to ASP.NET
- Facilitator Training
  - Developing training materials
- Integration with 643-pest Hotline
  - Access rights
  - Collaborate with HDOA staff to develop a pilot program/beta testing of online reporting system

# Staff Projects: Māmālu Poepoe

- Due to the high volume movement of people and cargo into Hawaii and between its islands, airports are highly vulnerable to the introduction and establishment of incipient invasive pests.
- This interagency project proposes to implement consistent early detection monitoring for target high priority incipient pests, which can be easily introduced through routine transportation activities yet are unlikely to be detected through traditional inspections already in place, and build up emergency rapid response capacities at Hawaii's major points of entry.

# Staff Projects: Māmālu Poepoe

- Program update:
  - Monies are available from DOT
  - Coordinator hiring in-process:
    - Interviews have been completed
    - References are being checked
  - A UH contract for economic analysis by Dr. Donna Lee (UH-CTAHR) is in process.
  - A UH graduate student hire by Dr. Helen Spafford (UH-CTAHR) will commence soon.
- Takeaway message:
  - The new Mamalu Poepoe coordinator should be hired in next month or so to get the program up and running.

# Staff Projects: IUCN WCC

- HISC staff roles:
  - Co-lead for Biosecurity Journey
  - Collaborating on four forum event proposals with Pacific Invasives Partnership, National Invasive Species Council, Island Conservation, and others
  - Assisting the Legacy Committee with identifying opportunities for lasting impact in Hawaii

# Interagency Biosecurity Plan

## Long-term

Vision for an effective multi-agency biosecurity system

## Intermediate

5-10 year roadmap for approaching our vision

## Near-term

Specific asks for the upcoming biennium

## Overarching

Outreach materials targeting decision makers

# Interagency Biosecurity Plan

- 1. Literature Review (March)**

*Summary of gaps & recommendations previously identified*

- 2. Public Sector Stakeholder Workshop (April 14)**

*Review/refine/prioritize a draft list of goals, objectives, and actions. Identify additional regulatory & policy gaps.*

- 3. Private Sector Stakeholder Workshops (May 4-5, 10-11)**

*Review draft goals and objectives. Identify industry barriers and potential solutions.*

- 4. Targeted follow-up (May-June)**

*Agencies clarify quantitative asks; additional stakeholder conference calls*

- 5. Plan drafted and circulated among stakeholders (June/July)**

- 6. Media outreach (Early July)**

- 7. Statewide public meetings (Late July)**

- 8. Plan finalized, outreach materials prepared (August)**

- 9. Plan is released**

*Announced at WCC, initial requests inserted into FY17-18 biennium budget (September)*
