

Building A Network

1

Maui's local communities talk story with each other to share knowledge and ideas, and offer guidance.

2

A Maui Navigation Team drafts a network of management goals and solutions. The team consists of Maui locals who currently engage with Maui's nearshore resources. Their work is informed by local science and cultural experts.

3

Navigation Team shares their ideas with the community at in-person events. The Maui community provides feedback and suggestions.

4

Navigation Team revises ideas based on community feedback and provides a proposed management network to DAR.

5

DAR prepares for statewide public scoping of the Maui Navigation Team's proposal.
