

MAIN STORY - SHARING FROM MAUI COMMUNITY MEMBERS DOING STUFF...

Once you get involved, no mo' end. Gotta stick to it for the long haul

There was abundance... now I no see 'em...
 Limu Festival raise awareness... hard to get everyone to participate...
 We doing LIGHT WORK gotta show da way!!
 We doing HULL A MAHI

THIS PROCESS IS NOT NEW... ITS HAPPENING... EAR MAUI kinda already ahead

Q. What challenges did you encounter?
 A. Political! Don't know what will happen until you try. I learned from walking whole sanctuary...
 Gotta KEEP TRY TRY TRY
 DON'T QUIT
 PERSISTENCE!!

Know your Limu so you can Malama your Limu!!
 Limu Festival raise awareness... hard to get everyone to participate...
 We doing HULL A MAHI

Show force by moving together get involved!!
 Show state you care! Tell them what we want.
 Let's give Maui guidelines

PROCESS for RULE CHANGE could be streamlined... 50000 LONGS
 EDUCATING those flown here not born here
 local chapter... getting our intention clear and setting the RECORD STRAIGHT!
 Be Adaptable
 Keep Chipping away

I don't believe in just one area regulator one attacks the other
 A. BAG limits (Kumu and - inside fighting between fishermen, divers etc...
 + POLITICS
 Nehu in Kahului Harbor took 9 years (during covid) to get regulation change to Dip Net (no opeo net)

Over tourism, reef degrading, species decline, we gotta do what we can to make it better!! We KEEP TRYING

Decline in Opihi → We did Opihi protocol & monitoring and other shelter
 Other areas looking to do something similar
 REST AREA
 VOLUNTARY NO TAKE AREA WORKED!!

Q. What resource problem you were trying to solve?
 A. BAG limits (Kumu and - inside fighting between fishermen, divers etc...
 + POLITICS
 Nehu in Kahului Harbor took 9 years (during covid) to get regulation change to Dip Net (no opeo net)

Over tourism, reef degrading, species decline, we gotta do what we can to make it better!! We KEEP TRYING

Q. How would you streamline the process...
 A. Not sure it's possible... ONLY IF everyone stopped everything and did only this BUT not realistic...
 Given the MÄNITUDE of this, it's complex & comprehensive, we need to take time I think 2-years would be good (Larger than that I would be pissed off.)
 If the new team had the support of fishermen it could happen with less trouble.

Q. BRAG a little about a success
 A. AINA MOMONA
 I don't know if ever going to get that again
 I respect EVERY group's effort.

Communication, community learning & GROWING
 our network is expanding
 We did actually get a rez change IUCN
 Succession = more young ones getting involved.

Q. Why aren't we addressing the water issues on Maui & Japan's nuclear impact?
 A. Gotta understand the government commitments DLNR different from other DLNR or other state departments...
 DLNR
 It's FRUSTRATING BUT you gotta know who responsible for what only responses for PSHMS keep not walk etc...

Q. What guidance do you have for the Maui Nav Team?
 A. Be INCLUSIVE - like Hawai'i from Kupuna
 be open-minded listen to other perspectives
 carry through
 SECURE THE FUNDING! don't waste our time!
 No make us work for nothing

Q. help me understand the process
 A. THIS process is GROUNDUP
 We sketched through a Navigation Team
 pick Nav Team
 Nav Team concept plan
 community input
 Nav Team revise plan
 Begin chat-91 process
