RE: BLNR Case No. BLNR-CC-16-002
Site Visit Proposal

Aloha no Judge Amano,

For the scheduled site visit, I Mehana Kihoi, am requesting a repeat of the “red ballon test” that was demonstrated in a 2011 Site Visit at the proposed site, during the first case hearing. A red helium balloon attached to a rope measuring 187 feet, was used to illustrate the imposed 18 story height of the TMT telescope.

I believe this exercise will be an effective visual tool to provide the Hearings Officer with insight to make a fair, and honest decision.

I Mehana Kihoi, will be joining all parties during the Site Visit on Mauna a Wakea.

Nui ke aloha,
Mehana Kihoi
