**MAUNA KEA ANAINA HOU ET AL. JOINDER**

NOW COMES Mauna Kea Anaina Hou, Kealoha Pisciotta ("MKAH"), and Paul Neves and files this joinder to the Temple of Lono Motion for Reconsideration of Minute Order 43.

MKAH agrees that the issuance of a schedule for the preparation of proposed decisions, orders, findings of fact, and conclusions of law is premature and in violation of HAR §13-1-38(a).

MKAH also agrees that the amount of time provided for parties to prepare the proposed decisions, orders, findings of fact, and conclusions of law is totally inadequate given the number and extent of witness and exhibits. MKAH support a time extension of not less than 90 to be scheduled after the completion of the record. The Petitioners who are Pro Se are biased if they must continue to argue over the admission/admissibility of exhibits while simultaneously being asked to complete findings of fact, conclusions of law etc.; that are necessarily based on a complete and final record. No injury will occurs by providing the Parties a reasonable period of time, after the completion of the actual record, to complete the final portions of this case. We submit, to do otherwise, however, will violate due process.
