

BEACH ACCESS

The Kā'anapali Beach project is co-sponsored by the State of Hawaii and the Kā'anapali Operators Association. The proposed project includes beach restoration activities along nearly 7,500 feet of beach. Approximately 50,000 c.y. of sand would build the beach wider between Hanaka'ō'ō Beach Park and Hanaka'ō'ō Point, and nearly 25,000 c.y. of sand would be placed on the dry beach between Hanaka'ō'ō Point and Pu'u Keka'a.

12 HOURS A DAY
7 DAYS A WEEK
55-95 WORK DAYS

Currently, pedestrian access to Kā'anapali Beach is available through Hanaka'ō'ō Beach Park and six public right-of-ways that are oriented perpendicular to the shoreline. Access along the beach is available on the Beachwalk and on the sand. There will be safety hazards in the vicinity of equipment and in the changing beach environment. The beach, in the active sand placement sites, will be cordoned off to protect the public. Crossing guards will assist the public in transiting to and from the beach during construction.
