**Subject:** **Unified Makalapa Nomination**

Aloha Ms. Borthwick,

I support the nomination of Makalapa as a single unified nomination, rather than two separate property nominations.

The Makalapa Housing Area should be combined into a single, undivided, unified, Historic Housing District encompassed by a single boundary with its contributing features as defined in the ICRMP, including all the setting and landscaping, not as 2 separate and distinct nominations.

The area will be far more valuable as an historic district to those who follow us into the 22nd century and beyond than it will ever be if divided into 2 separate property nominations.

I support listing the Makalapa Housing District with the National Register of Historic Places.

Mahalo Nui,

Ed Wagner  
Mililani
