PHOTO 43: 1954 photo of Dr. Maurice de Harne with a drink in his hand in the newly completed concrete slab lanai with new perimeter concrete walls with the new finished wood shingled lap siding, windows and door replacement for the house.
PHOTO 46: Picture of the cover of the book "Wahiawa" by Lani Nedbalek; which was used as a reference for this Historic Places Nomination.
PHOTO 47: Aerial photo of the property/site showing the house & garage on the lot with the circular driveway and estate walls, and the planting of the existing trees by Thomas S. Abel; the existing Marigold Subdivision/Tract, ca. 1930.
PHOTO 1: Exceptional Indian Banyan Tree (85 yrs.) on the right side of the property as observed from the front porch of the house looking east [see Exceptional Tree Ordinance Application for tree/Exhibit 1].
View inside of the Covered Lanai at the Living Room and fireplace, and the glass sliding door adjacent doors.
PHOTO 33: Interior view of the Formal Dining Room looking East over the Great Hawaiian Lawn out thru the existing original double-hung windows with fixed glass window in between (facing front) and double-hung window to the right; note this room is now used as a Piano Room, and also the gentleman standing to immediate left is Mr. Robert Fox, FAIA, last remaining trustee of The Hart Wood Foundation. The other posthumous trustees were Messrs. Charles R. Clark, FAIA, and Donald B. Fox.
PHOTO 39: Same as Photo 40 – interior view of the attic of the south section of the roof and roof superstructure of the double pitch roof
PHOTO 40: Interior view of the attic in the soffit section of the roof/ceiling; note the floorboards of the attic used for storage in the soffit section of the roof/ceiling — also note the vertical 24" panel boards across the photo that enclosed the attic and created a soffit ceiling area — this over the Kitchen and Formal Dining below, but also note removed beams for the open beams and double pitch roof struc-
PHOTO 41: 1954 photo of the renovation/alteration of the existing house replacing the original board-and-batten exterior wall finish with wood shingle lap siding, and window replacements; note the area of construction is about the existing Kitchen and Living Room area.
