Narrative Description

(Describe the historic and current physical appearance and condition of the property. Describe contributing and noncontributing resources if applicable. Begin with a **summary paragraph** that briefly describes the general characteristics of the property, such as its location, type, style, method of construction, setting, size, and significant features. Indicate whether the property has historic integrity.)

Summary Paragraph

The Owens Residence is a one-story wood-frame craftsman/storybook style residence with an enclosed basement and carport. The low pitch intersecting hipped roof has a wide eave overhang and exposed rafters. An entry porch extends from the side of the main façade. The 2420 Burbank Street house is a one-story wood frame craftsman style bungalow with a finished basement and enclosed carport. The low-pitched cross-gabled roof is covered in asphalt shingle, embellished on the front porch of the home with curved roof pitch and flared eaves. The entry porch juts out from the asymmetrical front façade. There is no hedge or fence bordering this property. The interior of the home reflects the craftsman style in materials and design. The house is located in Nuuanu, on Burbank Street, between Wyllie Street and Coelho Way. The house has high integrity of design, materials and workmanship of the late 1920s and early 1930s and the craftsman style. The property is in good condition and has had few alterations since it was built in 1936.

Owens Residence
Name of Property

Honolulu, HI
County and State

Narrative Description

The property lot is residential and faces Burbank Street, a quiet residential street in Nuuanu, located between Wyllie Street and Coelho Way. The residence is one story with an enclosed basement. The architectural classification is craftsman/storybook style inspired and contains the following stylistic elements: moderately pitched, intersecting, front and side gabled rooflines with exposed rafters and eave overhangs, entry porch, double hung multi-lit windows, and clapboard siding.

This property has a moderate front lawn and side driveway. The backyard is larger descending down to the Waolani Stream in two levels. The levels were created when the site was excavated partially and the basement, on stilts originally, was enclosed with cinderblock siding. The carport and is located on the southwest side of the house. There is no fence or hedge between the home and the street.

The house has 2 bedrooms and 2 full bathrooms. The total area of the house measures 2626 square feet. The main area measures 143 square feet with a garage that is 234 square feet. The house is a single-family home with a living room, dining room, rear porch and full kitchen. The basement level is a secondary living space with bathroom and bedrooms.

The front façade of the home faces southeast and is asymmetrical. The main entry is a single arched front door. The front entry porch is accessed by 4 stairs on the southeast side and leads to a small platform. The entry door is framed with a small side gable roof that intersects the main roof. The entry door is covered by an unusual as there is no pediment fill, only roof frame, and no column supports. Instead, the roof is supported by two thick supports extending from the either side of the door – similar to standard roof modillions found on colonial style homes, but exaggerated in size creating a strong entryway. Two steps and a small platform raise the entry from the concrete walkway leading from the driveway. Two double hung multi-lite windows are on either side of the covered front door. The upper level of the main façade is a large dormer with front gabled roof and exposed rafters with a slight eave overhang. The dormer is clapboard siding, same as the rest of the home, with two centered double hung multi-lite windows flush to the exterior and a rectangular attic vent with slats centered above the windows.

The southwest side of the home is partially obstructed from view by the garage. The south corner has one double hung multi-lite window and the west corner has a secondary entry door and double hung window. The second floor of the façade has a standard sized double hung window and a smaller casement window.

The rear side of the home has the rock foundation walls exposed due to the sloping yard. The rear side is where the sunroom is located with eight double hung windows grouped together and centered under the boxed awning with asphalt shingle. The second floor of the rear elevation contains the second floor master bedroom – identical to the second floor windows on the front façade.

Owens Residence

Name of Property

Honolulu, HI

County and State

The northeast elevation has a concrete platform with white railing and balustrades running along the base of the home where the living room is, with an additional step serving as access to the side yard. Two entry doors are located on either end of the living room space. Two additional double hung windows are covered with a boxed awning as part of the sunroom. The second floor has three double hung windows; two are more narrow located where the closets of the bedrooms are, and one larger where the bathroom is

Interior

The interior of the home is laid out with the public spaces in the front of the home and the private spaces on the northeast and rear. All of the windows, other than a few exceptions, are multi-lite. The original hardwood floors are intact but currently covered with carpeting. The walls were originally textured wallpaper have been replaced. However, a small portion of the original wall has been left on the interior of the built in cabinets in the dining room.

The main entry leads through the arched doorway into the living room. This room has white painted walls and white carpeting. There are large multi-lite windows facing the west side yard and a large arched opening leads into the dining room space. The dining room has access to the small-enclosed porch. The small porch was only screened in but has since been changed to have windows to prevent leaking. The living and dining room flow together since they are connected with the broad arched opening. The moldings on the ceiling are original.

The kitchen is in the rear west corner of the home. Built in cabinets and an attached dining table and booth are original to the home. The flooring is vinyl tile. The windows are multi-lite and overlook the side yard and garage. The door in the back of the kitchen leads to the rear porch which overlooks the stream and back yard.

The bedrooms are located by the hallway on the east side of the living room. the master bedroom is in the rear of the home with doorways to the hallway and the dining room. A second bedroom is in the corner of the home with a bathroom attached on the east side. the largest bedroom is in the front of the house with windows looking out to Burbank Street and the east side yard.

Changes:

The basement area is not original to the home and was added in the 1960s when Florence Puu, current owner, moved into the house. Part of the lot was excavated to allow space for the enclosed basement. Although not original, the basement is not visible from the street and does not detract from the character of the home.

8. Statement of Significance

Applicable National Register Criteria

(Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing.)

- ☒ A. Property is associated with events that have made a significant contribution to the broad patterns of our history.
- ☐ B. Property is associated with the lives of persons significant in our past.
- ☐ C. Property embodies the distinctive characteristics of a type, period, or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- ☐ D. Property has yielded, or is likely to yield, information important in prehistory or history.

Criteria Considerations

(Mark "x" in all the boxes that apply.)

- ☐ A. Owned by a religious institution or used for religious purposes
- ☐ B. Removed from its original location
- ☐ C. A birthplace or grave
- ☐ D. A cemetery

Statement of Significance Summary Paragraph (Provide a summary paragraph that includes level of significance, applicable criteria, justification for the period of significance, and any applicable criteria considerations.)

The Owens residence meets criteria A. the Owens residence has contributed to the broad patterns of development in the history of Hawaii during a time of tremendous growth of the outlying neighborhoods of Honolulu in the late 1920s as it is associated with the Burbank Tract Development and is one of the original homes on the Burbank Tract. This house is significant on the local level for the period of 1925 and 1926 when the lot was purchased and the residence was constructed.

Narrative Statement of Significance (Provide at least **one** paragraph for each area of significance.)

Criteria A

The Owens Residence is significant at the local level under criteria A for community development for the period of 1924 to 1937 when the lot was purchased from Realty Associates Ltd. as part of the Burbank Tract Development.

For the full description of the significance of the Burbank Tract Development, see the Burbank Tract Multi-property nomination section E

Owner History

Owens Residence

Name of Property

Honolulu, HI

County and State

This property is associated as part of the Burbank Tract development of 1925. The tract was developed when Realty Associates Limited subdivided the Burbank Estate, which was sold to the company by Mary Burbank in 1924. The first owner to buy the lot from Realty Associates Limited was David Richard Owens and his wife Mildred Arloween Owens who purchased the lot for \$3,500.00 in April of 1926. The home was built in 1937 by the Owens family who later sold the property to Joseph and Florence Puu in 1960 for \$35,000. The Puu family soon excavated and enclosed the sloped site in the rear of the home to make an apartment for Florence Puu's sister to live in.
