Subject: Save Pali Lanes

Aloha,

I have been bowling at Pali Lanes since the age of five years old. I am now 59 and have bowled all my life and still do today on the Tuesday Invitational Mix League.

Pali Lanes has been a gathering place for all of us on the windward side. Generations have bowled there and continue today and we all wish a longer lease would be granted so it may be improved. Due to the conditions of the facility because of a month to month lease, who would invest in it? As a professional and entrepreneur of 32 years, business cannot grow on a month to month lease. Difficult to maintain a world class bowling center that would attract professional bowlers from abroad and throughout the state.

Pali Lanes is one of the last remaining icons of the Kailua community for family fun and gatherings to celebrate birthdays, reunions, etc. If we had a state of the art bowling center, restaurant and bar with entertainment, that would significantly improve the business results and return to investors. A meeting room in the facility would also bring business meetings and various groups and/or culture events to drive business results.

I simply ask to consider a longer lease and to Keep Kailua "Kailua"! A place where generations have gathered for years and make the community proud. Save Pali Lanes and the Bowling Center and grant them a long lease so improvements can be made.

Mahalo for your time.
