If you need an auxiliary aid/service or other accommodation due to a disability and want to participate in this meeting, please contact Michelle Gorham at WestOahuSWCD@gmail.com or 808.729.1676 as soon as possible, but no later than 4 business days before the meeting date/time. If your request is received late, West Oahu SWCD will try to coordinate accommodation, but cannot ensure the request will be fulfilled.

*Attachment 1:
Guidelines for Zoom*

Zoom is fairly easy to use. To use the video conference features, you will need a computer, laptop, tablet or smartphone (though it is very small on a phone) with video camera capabilities, speakers and a microphone. If you don't have that, you can dial in from any telephone with the phone numbers listed in the invite above

At the designated time, click on the following link (if you have the video camera, speakers and microphone):

<https://zoom.us/j/2269358666>

Next you may get a page in your web browser that looks like this:

Redirect Notice

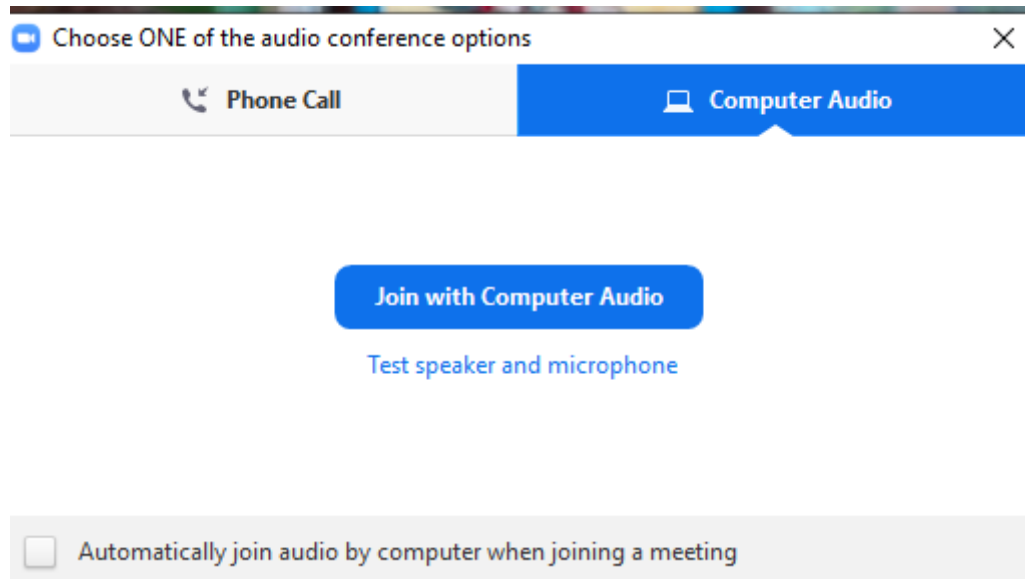

The previous page is sending you to <https://zoom.us/j/2269358666>.

If you do not want to visit that page, you can [return to the previous page](#).

If you do, click on the link I highlighted above in yellow.

It will have to download some software onto your computer, laptop or tablet. Your device needs to have a camera, microphone and speakers (most laptops and tablets do of course).

You will then likely get a screen that looks something like this (the key is the box in the middle) Click on the "Join with Computer Audio"

On the bottom left of your screen (left bottom corner), it will look like this.....you will see an icon of a microphone and it says mute and has an up arrow. The up arrow gives you a list of options for audio, as seen on this screen. Next to the Mic is an icon of a video camera with an up arrow. That up arrow lets you adjust video settings. You probably won't need to take this action.

Typically, when people have problems with the sound, it is either because they did not click on "Join with Computer Audio" on the previous step (you can also click on the tab before that for Phone call and it will give you instruction how to call in while you also use your computer for video).

USE ONLY ONE SOURCE OF AUDIO: If you call in AND have computer audio in the same room, all virtual participants will have terrible feedback or echoing.
