    1. They can create a general liability policy with non-owned auto insurance. The non-owned auto insurance is like additional insurance to the insurance on the vehicle that is being driven. The non-owned auto insurance will kick in when the other insurance has been maxed out. NRCS will still be the responsible party since it is their vehicle and insurance. Auto insurance follows the vehicle.
    2. General liability insurance covers slips and falls for clients that come into the office

### **XII. Adjournment**
