Project Background:

- AKC Leasing Corporation
 - Incidental Take License: allows for the take of round-leaved chaff flower (*Achyranthes splendens* var. *rotundata*)
- HCP to offset project impacts to 3 round-leaved chaff flower individuals on 0.75 ac industrial lot.
- Main goal: create new populations of round-leaved chaff flower at the Kalaeloa Unit of the Pearl Harbor National Wildlife Refuge (NWR) from the genetic stock (seeds and cuttings) of the individuals at the KIP project, as well as from an additional nearby seed source.
- Year 4

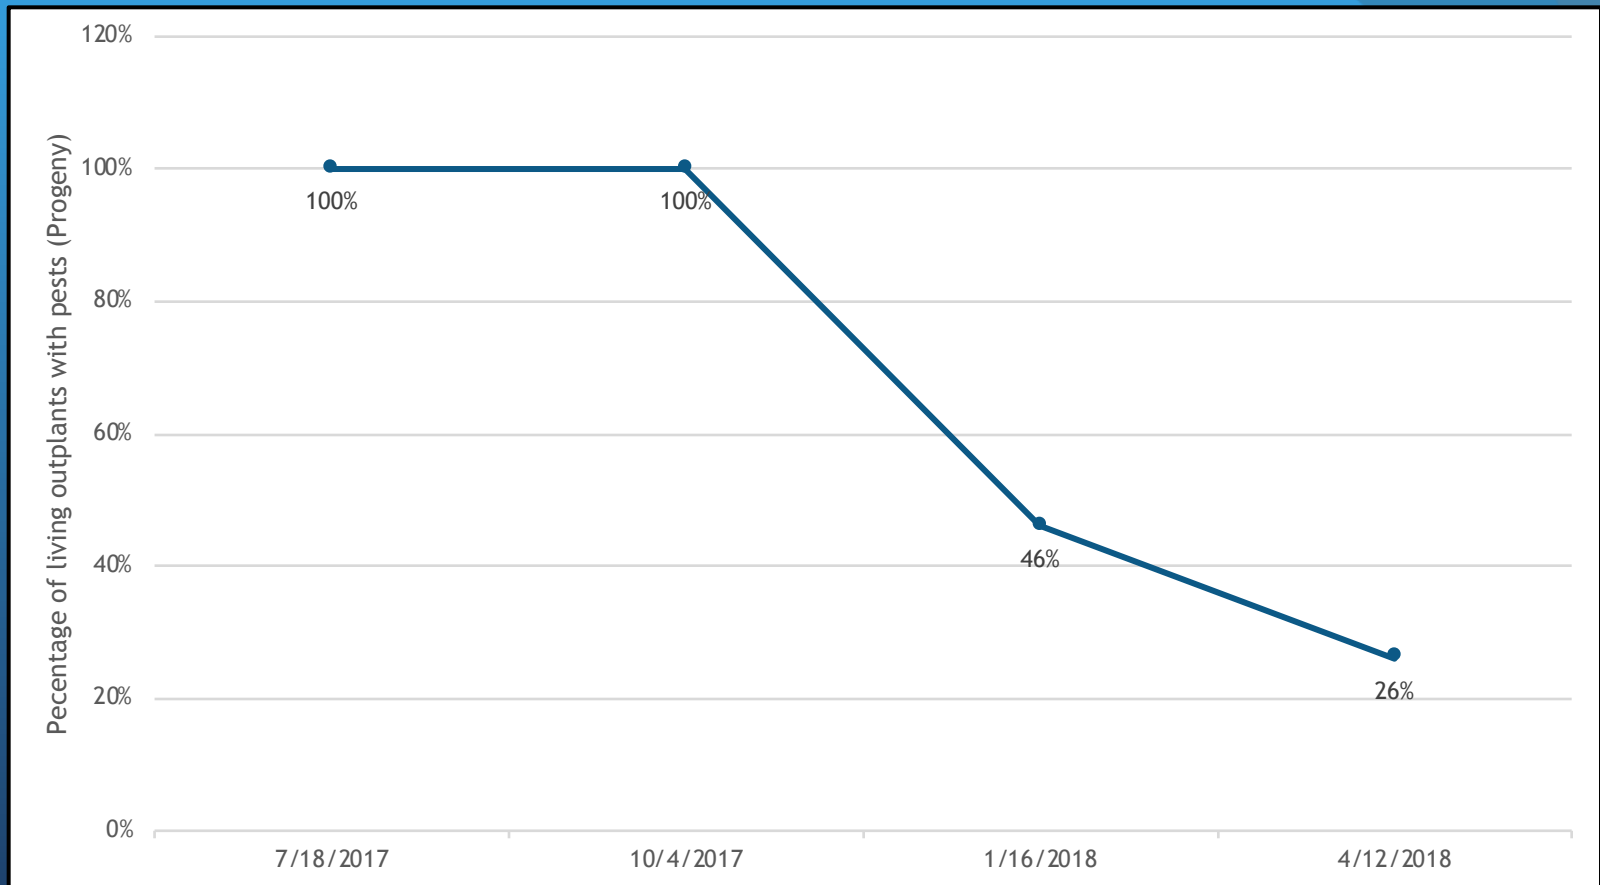

Current Mitigation Status:

Date	# Original plants	# Progeny
07//18/17	93	20
04/12/18	74	47
01/29/19	55	67

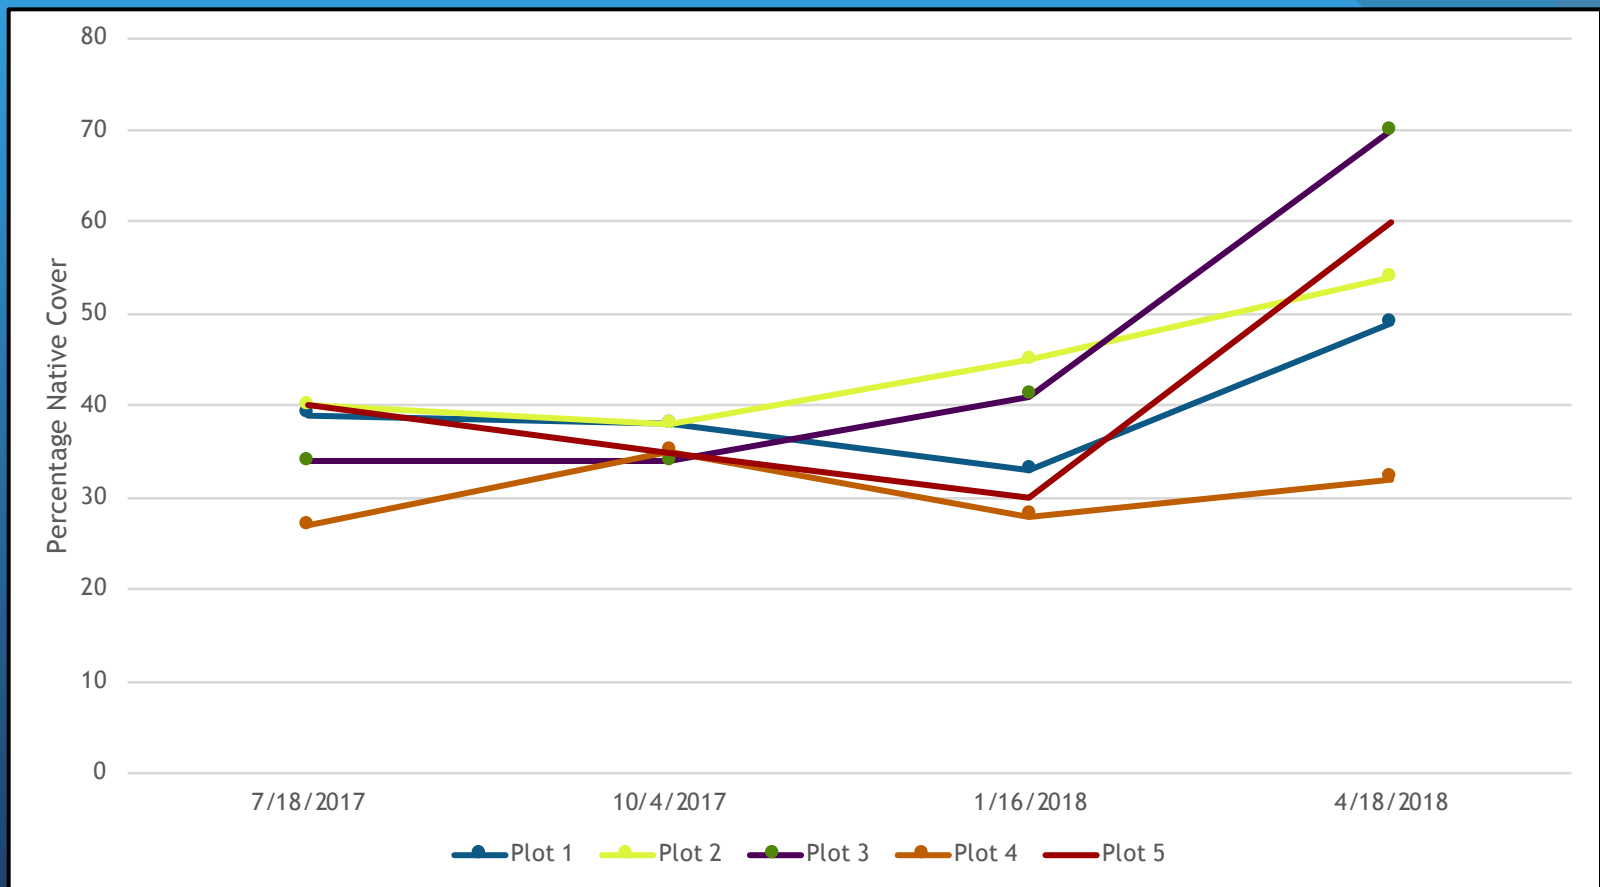

Plant Vigor:

Pest status:

Native Plant Cover
