Subject to the following conditions:

I. GENERAL CONDITIONS

1. This license only authorizes the permittee to conduct incidental take of *Pterodroma sandwichensis*, *Puffinus auricularis newelli*, *Branta sandvicensis*, *Lasiurus cinereus semotus*, *Hylaeus assimulans*, and *Oceanodroma castro* on the lands leased or otherwise controlled by Kaheawa Wind Power at the time this license is issued pursuant to the "Kaheawa Pastures Wind Energy Generation Facility Habitat Conservation Plan" dated December 2025 (hereafter "HCP").
2. This license is valid only if Kaheawa Wind Power abides by the terms and conditions of the HCP for the duration of the HCP. This license is valid for species protected by federal law only if accompanied by proper federal permits. Permit number for the required permit must be provided:

USFWS 10(a)(1)(B) permit no. TE72434A-1

*Permit number subject to change upon issuance of new Federal Permit

3. This license shall become valid upon completion of the following:
 - i. A legal representative of Kaheawa Wind Power has acknowledged understanding and agreement to abide by its conditions by signing two copies of Attachment 1, which is attached hereto and made a part of this license.
 - ii. Both copies of the signed license must be returned to the Division of Forestry and Wildlife. Upon approval by the Chairperson of the Board of Land and Natural Resources, a copy of the license will be returned to the applicant.
4. The Board may suspend or revoke this license if the HCP is suspended or revoked. The Board may also suspend or revoke this license in accordance with applicable laws and regulations in force during the term of the license.

II. SPECIAL CONDITIONS

1. This permit does not preclude the need for a State Wildlife Permit for mitigation work required under the HCP.
2. The allowable incidental take authorized by this license for *Pterodroma sandwichensis*, *Puffinus auricularis newelli*, *Branta sandvicensis*, *Lasiurus cinereus semotus*, *Hylaeus assimulans*, and *Oceanodroma castro* includes both direct and indirect take as defined in the HCP.
3. The estimation of incidental take will be conducted according to adjustments made to the observed direct take according to estimates of unobserved direct take, indirect take and loss of productivity, as detailed in the HCP.
4. Incidental take of *Pterodroma sandwichensis* authorized under this license exceeding a running average of two per fiscal year, or greater than five at any time during one fiscal year, requires the development and implementation of adaptive management strategies approved by the DLNR and the USFWS and reviewed by the ESRC in accordance with the HCP.
5. Incidental take of *Puffinus auricularis* authorized under this license exceeding a running average of one per fiscal year, or greater than two at any time during one fiscal year, requires the development and implementation of adaptive management strategies approved by DLNR and USFWS and reviewed by the ESRC in accordance with the HCP.
6. Incidental take of *Branta sandvicensis* authorized under this license exceeding a running average of four per fiscal year, or greater than eight at any time during one fiscal year, requires the development and implementation of adaptive management strategies approved by DLNR and USFWS and reviewed by the ESRC in accordance with the HCP.
7. Incidental take of *Lasiurus cinereus semotus* authorized under this license exceeding a running average of two per fiscal year, or greater than three at any time during one fiscal year, requires the development and implementation of adaptive management strategies approved by DLNR and USFWS and reviewed by the ESRC in accordance with the HCP.
8. Incidental take of *Oceanodroma castro* authorized under this license exceeding a running average of one per fiscal year, or greater than two at any time during one fiscal year, requires the implementation of adaptive management strategies approved by DLNR and USFWS and reviewed by the ESRC in accordance with the HCP.
9. Incidental take of *Hylaeus assimulans* nests authorized under this license exceeding a running average of one per fiscal year, requires the implementation of adaptive management strategies approved by DLNR and USFWS and reviewed by the ESRC in accordance with the HCP.
10. DLNR will be notified within 30 days in advance of any planned land management activity (e.g., construction or maintenance), which Kaheawa Wind Power reasonably anticipates will result in the incidental take of covered species on the enrolled property. Kaheawa Wind Power will also provide DLNR, possibly with the assistance of the USFWS, the opportunity to capture and/or relocate any potentially affected individuals of the covered species before the activity takes place.
11. DLNR will be notified within 3 days of any Covered Species mortalities, injuries, or disease observed on the property. Injured individuals or carcasses will be handled according to guidelines in the HCP.
