FOR IMMEDIATE RELEASE

October 31, 2013

ARBOR DAY EVENTS FEATURE NATIVE, NON-NATIVE PLANTS FOR SALE

HILO – Celebrate Arbor Day in Hawaii and “go green” by purchasing and planting a native plant from the Arbor Day plant sale on **Friday, November 1** at Department of Land and Natural Resources’ Division of Forestry and Wildlife (DOFAW) nurseries on the Big Island.

Planting a native plant celebrates the forests that are fundamental to our way of life. Hawaii’s native forests provide the islands’ water supply by absorbing large quantities of moisture from passing clouds and rainfall. These watershed forests reduce greenhouse gases and flooding, erosion, and siltation of reefs and fisheries. Native plants also have cultural significance, regarded as elders and ancestors, or used for medicines, offerings, or other material needs.

Learn more about these incredible and unique plants at the Big Island sale, held in two locations, from 8 a.m. to 1 p.m. In Hilo the plant sale is at the DOFAW baseyard at 19 E. Kawili St. (corner of Kawili St. and Kilauea Ave.). Phone 974-4221. In Kamuela, the sale is at the DOFAW Kamuela State Tree Nursery at 66-1220A Lalamilo Road. Call 887-6061.

A variety of native and popular non-native plant species will be available for purchase. Supply may be limited, so come early.

The cost of plant species will range from \$1 each for dibble tube seedlings to \$15 each for 3-gallon pots. There are no limits on quantities purchased and all sales are on a cash only basis. Plant sales will feature both native and non-native plants raised at DOFAW nurseries that are popular with gardeners and landscapers. Proceeds will be used to support nursery operations and forest management.
