

**Report to the Twenty-Eighth Legislature  
Regular Session of 2016**

**INSTANCE  
OF USAGE OF ELECTRIC GUNS**

**Prepared by:  
Division of Conservation and Resources Enforcement  
Department of Land and Natural Resources  
State of Hawaii**

**In response to:  
Section 134-16(d), Hawaii Revised Statutes**

**Honolulu, Hawaii  
November 2015**

## **INSTANCE OF USAGE OF ELECTRIC GUNS**

This report is submitted in accordance with Section 134-16(d), Hawaii Revised Statutes, regarding the maintenance of records and instance of usage of electric guns.

Act 148, Session Laws of Hawaii 2012, authorized the Department of Land and Natural Resources' Division of Conservation and Resources Enforcement (DOCARE) the ability to possess electric guns while continuing efforts toward accreditation by the Commission on Accreditation for Law Enforcement Agencies by June 30, 2018. To that extent, DOCARE has purchased electric guns commonly known as "Tasers" and related accessories.

In June 2015, DOCARE sent personnel to receive instructor level training on the use of the Taser conductive electric weapon. These instructors have since begun training Conservation and Resource Enforcement Officers statewide on the deployment and use of the Taser. This training is on-going and is expected to be completed by the end of 2015.

In addition, DOCARE has drafted a policy on Taser use and has consulted with the Hawaii Government Employees Association (HGEA). It is expected that a final, official policy on Taser use will be effective by the end of 2015 and that the actual Taser conductive electric weapons will be fielded shortly thereafter.

Consequently, the Department of Land and Natural Resources reports no instances of the use of electric guns.
