Registered business name confirmed:	YES <u>X</u>	NO
Applicant in good standing confirmed:	YES <u>X</u>	NO

REMARKS:

On May 22, 2015, under agenda Item D-14, the Board approved the issuance of a right-of-entry to the Applicants for due diligence regarding their proposed community farm over (1) 4-1-008:008 (Parcel 8), as outlined in blue on Exhibit 1. Applicants are working on the environmental assessment under Chapter 343, HRS before returning to the Board, if appropriate, seeking a direct lease over Parcel 8 and the subject location as defined below. A copy of the May 2015 approved submittal is attached as **Exhibit 3**.

Applicants request the use of the areas depicted on Exhibit 1-B as "Parcel 72 por." and

Parcel 75 (collectively Subject Location) to start their community farming project, as a pilot to the direct lease proposed in their 2015 application. Staff notes that Parcel 72 por. was previously encumbered under a revocable permit for agriculture purposes until recently, whereas Parcel 75 is vacant and available since the previous agricultural use ceased in late 1980s.

The Subject Location can be used during the trial period to prove the site is suitable for community farming purposes as approved by the Board in 2015, while the environmental assessment for the 2015 requested area is being conducted. Applicants intend to request the inclusion of the Subject Location into the eventual leased area. In addition, staff believes the issuance of the requested revocable permit is appropriate since the Subject Location is not a legally subdivided lot, and the Applicant can maintain the site until a final decision (pending the outcome of the environmental assessment) from the Board on the long term direct lease is available.

Department of Facility Maintenance, Department of Planning and Permitting, Board of Water Supply, Department of Parks and Recreation, Office of Hawaiian Affairs, and Department of Agriculture have no objection/comment to the subject request.

Department of Health and State Historic Preservation Division have not responded to the solicitation for comment before the deadline.

Department of Hawaiian Home Lands supports the request by its response (**Exhibit 4**) and encourages the Applicant contact the department or the Waimanalo Homestead Association regarding services/programs to be provided by the Applicant.

#### Justification for Revocable Permit

At its meeting on June 24, 2016, item D-7, the Board adopted the Revocable permit Task Force's recommendation, including a standardized checklist to be provided to the Board with reasons justifying the issuance of a revocable permit.

1. Site issues – the Subject Location is not a legally subdivided lot and lacks proper legal access. Applicants plan to use the adjacent Parcel 8 as the access during the effective period of the requested revocable permit. As mentioned above, Applicants intend to request the inclusion of the Subject Location in the direct lease they are working on.
2. Truly short term use – the requested revocable permit is anticipated to last until the issuance of the proposed direct lease. Applicant is working on the required environmental assessment for the lease application, and it is expected the process can be completed in one year.
3. Interim arrangement pending lease disposition – see 2 above.
4. Testing market and operational issues, plan to go to lease later – see 2 above.
5. Government uses – not applicable.
6. Non-profits – both Applicants are non-profit entities.
7. Staff is unaware of interest in long-term disposition – not applicable, as the Subject

Location is not a legally subdivided lot.

8. Other unusual circumstances – The idea of community farming is relatively new to the Division on Oahu State parcels. The project proposed by the Applicants is focusing on the community of Waimanalo, in which agriculture is one the primary uses. Further, the proximity of the Subject Location to other social services, e.g. churches, and the support from the community volunteers would enhance the chance of success. In addition, Parcel 8 [the parcel undergoing the environmental assessment process] has been left vacant for a long time. If the pilot project on the Subject Location is successful, the program itself would need to be extended in terms of area. Therefore, staff believes the issuance of revocable permit over the Subject Location is an important piece in the development of the community farming concept.

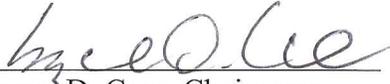

RECOMMENDATION: That the Board:

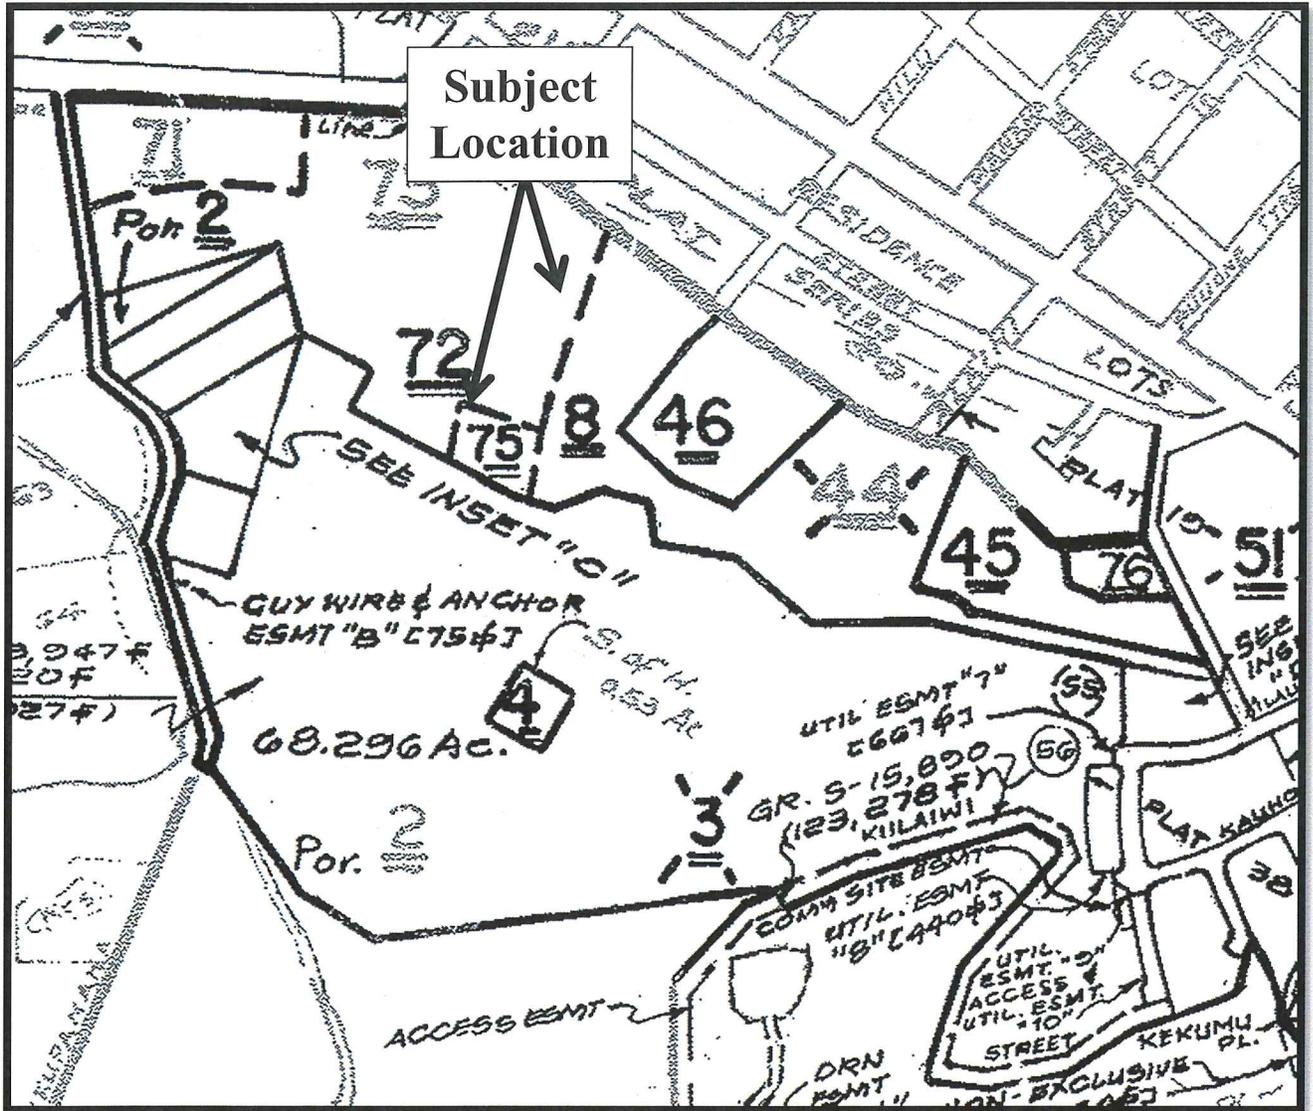

1. Declare that, after considering the potential effects of the proposed disposition as provided by Chapter 343, HRS, and Chapter 11-200, HAR, this project will probably have minimal or no significant effect on the environment and is therefore exempt from the preparation of an environmental assessment.
2. Authorize the issuance of a revocable permit to Pu`a Foundation and Hui Mahi`ai covering the subject area for community farming purposes under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:
  - A. The standard terms and conditions of the most current revocable permit form, as may be amended from time to time;
  - B. The permittee shall have access over the adjoining TMK (1) 4-1-008:008;
  - C. Review and approval by the Department of the Attorney General; and
  - D. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

**EXEMPTION NOTIFICATION**

Regarding the preparation of an environmental assessment pursuant to Chapter 343, HRS and Chapter 11-200, HAR.

Project Title: Revocable Permit for Community Farming Purposes.

Project / Reference No.: 15OD-047

Project Location: Waimanalo, Koolaupoko, Oahu, Tax Map Key: (1) 4-1-008:072 portion and 075.

Project Description: For community farming purposes in anticipation of incorporating into the long term leased premises over the adjacent parcel for same purposes.

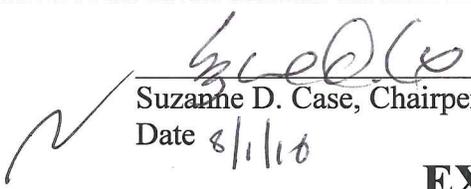

Chap. 343 Trigger(s): Use of State Land

Exemption Class No.: In accordance with the Exemption List for the Department of Land and Natural Resources approved by the Environmental Council dated June 5, 2015, the subject request is exempt from the preparation of an environmental assessment pursuant to Exemption Class No. 1, Item 47, that states "lease of State land involving negligible or no expansion or change of use beyond that previously existing."

The requested location has been used for farming purposes. The bulk of the Subject Location became available lately due to the relocation of the former permittee to another location. Therefore, staff believes the issuance of a new revocable permit has no significant effect on the environment.

Consulted Parties: Agencies as noted in the submittal.

Recommendation: That the Board find this project will probably have minimal or no significant effect on the environment and is presumed to be exempt from the preparation of an environmental assessment.

CHAPTER 343 - ENVIRONMENTAL ASSESSMENT:

Upon approval of subject request, applicant will commence the environmental assessment pursuant to Chapter 343, HRS. Outcome of such assessment process will be brought to the Board before final approval of the requested lease is considered by the Board.

In accordance with the Division of Land Management's Environmental Impact Statement Exemption List, approved by the Environmental Council and dated April 28, 1986, the subject request for issuance for right-of-entry is exempt from the preparation of an environmental assessment pursuant to Exemption Class No. 4, that states "Minor alteration in the conditions of land, water, or vegetation", and pursuant to Exemption

Class 5, that states " Permission to enter State lands for the purpose of basic data collection, research, experimental management and resources evaluation activities such as archaeological survey, topographic survey, test borings for soil test, ground cover survey inspection of property for appraisal and development feasibility study purposes." (Exhibit B)

DCCA VERIFICATION:

Place of business registration confirmed:	YES	<u>  X  </u>	NO	<u>    </u>
Registered business name confirmed:	YES	<u>  X  </u>	NO	<u>    </u>
Good standing confirmed:	YES	<u>  X  </u>	NO	<u>    </u>

APPLICANT REQUIREMENTS:

None at the time of writing this submittal, subject to insertion of any applicant requirement upon finalization of the environmental assessment process.

REMARKS:

Over the years, portions of the subject parcel have been leased pursuant to multiple leases or revocable permits for agriculture purposes. The majority of those leases or permits no longer exist for various reasons. Adjacent to the subject parcel is a subdivision developed by the Department of Hawaiian Home Lands and the individual lots are leased to qualified homesteaders.

Hui Mahi`ai, a domestic non-profit corporation set up by one of the homesteaders, intends to set up a community farm on the subject parcel. According to the bylaws, the organization intends "...to educate about, foster the study of, and practice the principles of ahupua`a land management for subsistence farming in Waimanalo...", and "... to develop a fully operating sustainable subsistence cooperative in the community of Waimanalo."

Pu`a Foundation is also a domestic non-profit organization since 1996, which aims at promoting Hawaii's history and culture to reconcile the past to the present. It works with the community and develops programs bringing positive changes to native Hawaiian women.

Both applicants will be jointly responsible for developing and managing the proposed community farming operation. Under the proposal, individual residents will be allocated a portion of the subject parcel for farming, subject to payment of appropriate share of utilities and other similar costs. Harvests will either be consumed by the residents and their families or sold at the farmers' market.

Based on the information provided on the questionnaire completed by the applicants attached as **Exhibit C**, staff solicited comments from other agencies on the requested

approval-in-principle of a direct lease, with the issuance of a right-of-entry for due diligence purposes.

Division of Forestry and Wildlife, Board of Water Supply, Department of Planning and Permitting, Department of Facility Maintenance, Commission on Water Resources, and Department of Parks and Recreation have no objection/comment to the subject request.

Department of Hawaiian Home Lands, State Historic Preservation Division, Department of Agriculture, and Office of Hawaiian Affairs have not responded to the solicitation for comment before the deadline.

### STAFF POSITION

In previous cases regarding direct leasing for non-profit organizations, staff would recommend the issuance of a 24-month right-of-entry permit to allow the applicant going through the environmental assessment process. Upon compliance with the environmental assessment process, staff would bring the application to the Board for final approval for the issuance of a direct lease. Staff understands the environmental assessment process is costly. Further, an applicant would want to obtain an approval-in-principle from the Board before it starts any due diligence. The approval-in-principle would facilitate the applicant to seek funding to conduct the due diligence.

Applicant has not had a lease, permit, easement or other disposition of State lands terminated within the last five years due to non-compliance with such terms and conditions, and is a domestic non-profit corporation and 501(c) (3) entity, which qualifies for a direct lease pursuant to 171-43.1, HRS.

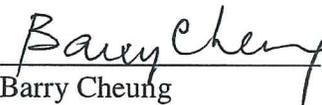

Staff does not have any objection to the subject request.

### RECOMMENDATION: That the Board:

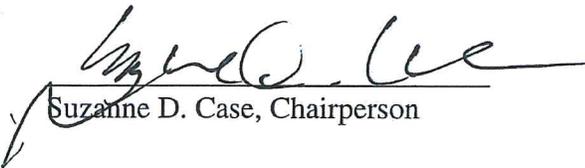

1. Approve in principle for the issuance of a direct lease to Pu`a Foundation and Hui Mahi`ai.
2. At its own cost, Pu`a Foundation and Hui Mahi`ai shall pursue satisfactory compliance with Chapter 343, Hawaii Revised Statutes within twenty-four (24) months of the Land Board's approval;
3. Should Pu`a Foundation and Hui Mahi`ai fail to obtain satisfactory compliance with Chapter 343, Hawaii Revised Statutes within twenty-four (24) months of the Land Board's approval, the Land Board's approval shall be considered rescinded;
4. Pu`a Foundation and Hui Mahi`ai shall acknowledge the following:
  - A. All costs associated with the necessary compliance with Chapter 343, Hawaii Revised Statutes shall be the responsibility of the Pu`a Foundation and Hui Mahi`ai; and

- B. This action is an approval in principle and does not provide any assurance of a direct lease and such approval of a direct lease shall be subject to consideration by the Land Board under a separate action after satisfactorily complying with Chapter 343, Hawaii Revised Statutes.
5. Declare that, after considering the potential effects of the requested right-of-entry as provided by Chapter 343, HRS, and Chapter 11-200, HAR, this project will probably have minimal or no significant effect on the environment and is therefore exempt from the preparation of an environmental assessment.
6. Authorize the issuance of an immediate right-of-entry permit to the Pu`a Foundation and Hui Mahi`ai for conducting due diligence pertaining to environmental assessment compliance for the requested leases covering the subject area under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:
- A. The standard terms and conditions of the most current right-of-entry permit form, as may be amended from time to time; and
- B. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

Approved as amended. See attached page.

Land Board Meeting: May 22, 2015; D-14: Approved as amended.

**Approved as amended.** The Board approved the staff recommendation but asked staff to inquire with the Department of the Attorney General on whether in this case an environmental assessment is required, or whether an exemption from Chapter 343, HRS exists for what appears to be a continuing use of these agricultural lands.

**EXEMPTION NOTIFICATION**

Regarding the preparation of an environmental assessment pursuant to Chapter 343, HRS and Chapter 11-200, HAR

Project Title: Right-of-Entry for Due Diligence Purposes

Project / Reference No.: 15OD-047

Project Location: Waimanalo, Koolaupoko, Oahu Tax Map Key: (1) 4-1-008:008

Project Description: Due diligence purposes.

Chap. 343 Trigger(s): Use of State Land

Exemption Class No.: In accordance with Hawaii Administrative Rule Section 11-200-8(a), the subject request is exempt from the preparation of an environmental assessment pursuant to Exemption Class No. 4, that states "Minor alteration in the conditions of land, water, or vegetation", and pursuant to Exemption Class No. 5, that states "Basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource."

The request is related to due diligence needs for the proposed direct lease for community farming. Staff does not expect there will be major alteration in the conditions of the land, water or vegetation at the location.

Consulted Parties Agencies as noted in the submittal

Recommendation: That the Board find this project will probably have minimal or no significant effect on the environment and is presumed to be exempt from the preparation of an environmental assessment.

- Financial and human resources to support the development of the community gardening/subsistence farming endeavors will initially come from Pū'ā Foundation. Hui Mahi'ai board members, volunteers, supporters and partnering organizations, including faith-based organizations.

Part III: Program Activities and Persons to be Served

15. What activities will be conducted on the premises to be leased?  
Community gardening/subsistence farming primarily for Waimanalo residents, as well as

community groups and/or other appropriate organizations, including faith-based organizations and Ahupua'a land management traditions and practices.

16. What are the specific objectives of these activities?  
To create sustainable subsistence cooperative primarily benefitting Waimanalo residents, as well as community groups and/or other appropriate organizations, including faith-based organizations.

17. Describe the community need for and the public benefit derived from these activities.  
There is the need to create a source of healthy, fresh, low cost nutritious foods for community consumption to support Waimanalo residents and the distribution to the needy through faith-based organization's food banks.

18. Describe the targeted population for these activities by: 1) age group, 2) gender, 3) ethnic background, 4) income level, 5) geographic location of residence, 6) special needs/disability, and 7) other applicable characteristic(s).  
The target population include residents of Waimanalo and individuals/families that frequent faith-based organization food bank distribution centers.

19. Describe all eligibility requirements of clients to participate in the activities, e.g. age, income level, ethnic background, income level, disability, etc.  
The eligibility of participants for the community gardening/subsistence farming include Waimanalo residents. Ahupua'a land management traditions and practices.

20. Do you require membership to participate in these activities? Yes/No  
If yes, list the requirements of becoming and remaining a member:

21. How many unduplicated persons will engage in the activities annually?

<u>Activity</u>	<u>Persons Per Year</u>
<u>Community gardening/subsistence farming</u>	<u>approximately 100</u>

22. Is State funding made available for the activities to be conducted Unsure Yes/No  
on the leased premises?

If yes, by which State agency: \_\_\_\_\_

23. List all activities to be conducted on the leased premises which require payment of excise taxes, e.g. subleasing, sale of products or services. Include an estimate of annual gross revenues from each activity.

Not applicable. All participating members will pay their share of operating costs of the farm, eg. Utilities, insurance, rental. There will be no selling of produce or subleasing on the premises.

Development of the Land

24. Describe the proposed site development plan for the property, indicating the location and size of buildings, parking areas, landscaped areas and related uses. Attach sketch of plan if available.  
No major site development is planned, however appropriate farming structures/sheds to support food processing for community gardening/subsistence farming, i.e. cleaning and preparing fruits and vegetables, storage of tools, equipment, supplies, and the like are planned. In addition, pathways will be created to access various plots on the property.

25. What improvements to the land do you intend to make and at what cost?  
No major improvement to the land is intended.

26. How will the improvements be funded?  
If any improvements were to be made, funding would be provided through donations

27. Describe all environmental, land use and other permitting requirements which must be met to develop the land as proposed.  
No major land improvements are planned that would impact the need for permitting – planned land use is for community gardening/subsistence farming. Applicant will comply with any permit requirements imposed by any government agencies, should the occasion require.

28. Will you be subleasing any portion of the property? If yes, describe the sublease uses:  
Current plans do not include subleasing.

MEMORANDUM

TO: Mr. Barry Cheung, Land Agent  
Department of Land and Natural Resources

FROM: Jobie M. K. Masagatani, Chairman *masagatani*  
Hawaiian Homes Commission

SUBJECT: Request of Issuance of Revocable Permit for Community  
Farming Purposes

The Department of Hawaiian Home Lands (DHHL) received the memorandum dated June 9, 2016 regarding the request for comments on the above subject matter. DHHL offers the following comments at this time:

- DHHL is supportive of the issuance of the revocable permit to the Pua Foundation and Hui Mahiai for community farming purposes. Based on the description of the use in the application, the proposed use and programs would likely be beneficial for DHHL's Waimanalo Homestead Lessees;
- Should the BLNR approve the revocable permit, please encourage the permittee to contact the Waimanalo Hawaiian Homestead Association or DHHL so that our Waimanalo lessees can be notified about potential programs and services that would be available to them.

Mahalo for the opportunity to comment. Should you have any questions, please contact Andrew H. Choy, Planner at 808-620-9279 or [andrew.h.choy@hawaii.gov](mailto:andrew.h.choy@hawaii.gov) .
