Board of Land and Natural Resources  
State of Hawaii  
Honolulu, Hawaii

Hawaii and Kauai

Holdover of Revocable Permits for Water Use on the Islands of Hawaii and Kauai. See Exhibit 3 for list of Revocable Permits.

LEGAL AUTHORITY:

Section 171-58, Hawaii Revised Statutes (HRS), as amended.

HRS CHAPTER 343 – ENVIRONMENTAL ASSESSMENT:

In accordance with the Exemption List for the Department of Land and Natural Resources, approved by the Environmental Council on June 5, 2015, the subject action is exempt from the preparation of an environmental assessment pursuant to Exemption Class 1, "Operations, repairs, or maintenance of existing structures, facilities, equipment, or topographical features, involving negligible or no expansion or change of use beyond that previously existing." See Exhibit 1 attached.

BACKGROUND:

At its meeting on December 11, 2015, Item D-14, as amended, the Board of Land and Natural Resources directed Land Division staff to submit revocable permit renewals by county over four meetings, with an explanation of why a revocable permit is the appropriate disposition and how the rent was set. At its meeting on June 24, 2016, Item D-7, the Board further approved the recommendations of the Department of Land and Natural Resources Revocable Permit Task Force, as amended, requesting all divisions notate any non-compliance issues and pending litigation in the renewal request. In compliance with these directives, staff has presented the revocable permits for land uses by county over four separate meetings in 2016. However, staff omitted revocable permits for water use from the renewal requests because of the complex issues they present. Staff now brings nine of the existing water permits on the islands of Hawaii and Kauai to the Board for a one-year holdover pursuant to Section 171-58, HRS, as recently amended by Act 126 Session Laws of Hawaii 2016 (Act 126).

REMARKS:

On July 1, 2016, Act 126 became law, amending Section 171-58, HRS. The amended section provides in part:

Where an application has been made for a lease under this section to continue a previously authorized disposition of water rights, a holdover may be authorized annually until the pending application for the disposition of water rights is finally resolved or for a total of three consecutive one-year holdovers, whichever occurs sooner; provided that the total period of the holdover for any applicant shall not exceed three years; provided further that the holdover is consistent with the public trust doctrine . . . .

A copy of the full text of Act 126 is attached as Exhibit 2.

By letter dated July 20, 2016, Land Division notified its current water permit holders on the islands of Hawaii and Kauai of the enactment of Act 126, and asked them to submit applications for water leases if they intended to seek a holdover of their water permits.<sup>1</sup> In response, DLNR received eight applications for water leases from seven of its current water permittees. Additionally, Kauai Island Utility Cooperative (KIUC) has a pending application (received July 20, 2001) for an existing hydroelectric power project in Lihue, Kauai. KIUC is relying on its prior application for this use.

The list of revocable permits for water use on the islands of Hawaii and Kauai that staff recommends be held over for 2017 is attached as Exhibit 3. Included in the exhibit are the revocable permit numbers, permittee names, locations with tax map keys, State Land Use District of the land where the water source is situated, commencement date of the permit, land area, annual rent, and comments. Copies of the maps from the revocable permits to be renewed are attached as Exhibit 4. Staff reviews the nine water permits by island below, followed by a discussion of the public trust doctrine as it relates to the permits.

Hawaii

Of the nine water permits that are the subject of this submittal, five are located in Kau, Hawaii.<sup>2</sup> Hawaiian Agricultural and Hutchinson Sugar Company, both subsidiaries of C.

---

<sup>1</sup> Land Division also notified water permit holders on Maui, but the Maui water permits will be taken up at a subsequent Board meeting.

<sup>2</sup> There was a seventh revocable permit for water in South Kona, Hawaii, to Kapua Orchard Estates, LCC (RP 7360) for well water for use on a macadamia nut farm. However, the owner of the farm sold the private lands to Mac Farms LLC, who has applied for a new revocable permit in its name. Mac Farms LLC's application for a revocable permit will be handled as a separate Board request for a new disposition.

Brewer & Co., Ltd., developed a system of tunnels, flumes and ditches in Kau in the 1900s, using the water primarily for fluming sugarcane and for wash water in the mills. Beginning in the late 1990s, some of the tunnels and transportation systems were converted to provide water to farmsteads and diversified crop endeavors. Diversified agriculture, livestock pasturage, orchard and field crops have expanded within the Kau District since that time.

At its meeting of January 11, 2008, under agenda Item D-8, the Board approved the withdrawal of the irrigation water system from the Kau Forest Reserve (KFR) and the set-aside of the system, along with other irrigation systems located outside of the KFR, to the Agribusiness Development Corporation (ADC). The staff submittal identified approximately 30 tunnel sources and systems to be set-aside to ADC. The approved Board action required ADC to survey the tunnels and water systems so the State Surveyor could prepare the official CSF maps to be included with the set-aside.

ADC provided the survey maps and descriptions to Land Division in 2015. As Land Division continued to process the approved disposition, it consulted with the Division of Forestry and Wildlife (DOFAW) on the survey maps and the status of the withdrawal from the KFR. DOFAW advised Land Division that DOFAW was opposed to the withdrawal of the water system from the KFR, but would be agreeable to an easement in favor of ADC over the portions of the irrigation system located in the KFR.

To address DOFAW's concerns, staff prepared a draft Board submittal to rescind the Board's prior action of January 11, 2008, Item D-8, and authorize instead the grant of a perpetual non-exclusive easement to ADC for the irrigation systems located in and outside of the KFR. The draft Board submittal would also have transferred the existing water permits and irrigation infrastructure to ADC. When the draft submittal was circulated for agency review in June 2016, however, it was opposed by the Department of Hawaiian Home Lands (DHHL) and Office of Hawaiian Affairs (OHA). DHHL argued that the proposed action was an improper circumvention of Section 171-58, HRS, and ignored DHHL's need for water in Kau. OHA expressed concern about ADC's ability to properly manage the revocable permits and fulfill the public trust obligations inherent in water use.

A sixth water permit, Revocable Permit No. S-7463, is issued to Hawaii Electric Light Co., Inc. for hydroelectric power generation purposes on the Wailuku River in South Hilo, Hawaii. The permit requires all water used under the permit to be returned to the Wailuku River at convenient points. The hydroelectric facility and various water dispositions to allow it to operate have been in place for many decades.

### Kauai

There are three water permits currently active on Kauai. RP S-7088 to Jeffrey S. Lindner allows for the use of water from State land in Kawaihau, Kauai, specifically from Moloaa Well No. 1. A portion of this water goes to the County of Kauai, a portion goes to the Moloaa Irrigation Cooperative (MIC), and a portion is used by Mr. Lindner on his private

property. Staff understands that MIC provides water for both irrigation and domestic use. At the end of 2015, the Department of Health Safe Drinking Water Branch (SDWB) notified Mr. Lindner that SDWB was designating the system as a public water system which requires that that water be chlorinated prior to reaching the first customer, MIC. This has increased the cost of operation to Mr. Lindner, who has applied for a water lease explaining that a long-term disposition is necessary to allow him to recover his costs.

When the Board approved the permit to Mr. Lindner in 1996, the permit was supposed to be a temporary measure to allow the County of Kauai Department of Water (KDOW) time to conduct a feasibility study to determine the appropriateness of creating a new water system based on the Moloaa well. KDOW did not complete the feasibility study. At its meeting of September 24, 1999, Item D-4, the Board amended this condition and stated that in the event no government entity indicates an intention to operate a water system, a public auction sale of the water license was to be conducted by October 30, 2000. No auction has been conducted to date, in part because the water source is landlocked by Mr. Lindner's private lands. Recently, KDOW expressed some interest in acquiring this water source. However, because the well is landlocked, KDOW would need to negotiate the purchase of or otherwise acquire the water transmission facilities and an easement to maintain it on Mr. Lindner's land, which complicates the creation of a public water system here.

Revocable Permit No. S-7310 was issued in 2002 to the East Kauai Water Users' Cooperative (EKWUC) for irrigation purposes over a system that had previously been used for sugarcane plantations. The permit restricts the use of irrigation water to those agricultural lands presently served by the system, or that had been served in the past. On August 26, 2016, EKWUC submitted an application for a water lease.

Revocable Permit No. S-7340 was issued in 2003 to Kauai Island Utility Cooperative (KIUC) for water from the Blue Hole Diversion to operate two hydroelectric plants. KIUC requested a water lease from the Board at its meeting of December 10, 2004, Item D-26, but the Board took no action on the request. OHA requested a contested case hearing. OHA and KIUC entered into a memorandum of agreement dated November 9, 2006 whereby OHA agreed to withdraw its request for a contested case if KIUC committed to performing specified studies in connection with the use of surface water. OHA and KIUC have agreed on the scope of the studies and OHA has withdrawn its request, although KIUC continues to work on a cultural impact assessment for the project. KIUC is still intending to obtain a water lease, but is relying on its lease application submitted on July 20, 2001.

#### Public Trust Doctrine

Title to water resources is held in trust by the State for the benefit of its people. Pursuant to *In re Water Use Permits*, 94 Hawaii 97, 9 P.3d 409 (2000), and *In re Wai'ola O Moloka'i, Inc.*, 103 Hawai'i 401, 83 P.3d 664 (2004) the Hawaii Supreme Court has identified four public trust purposes with respect to water:

- Maintenance of waters in their natural state;
- Domestic water use of the general public, particularly drinking water;
- The exercise of Native Hawaiian and traditional and customary rights, including appurtenant rights; and
- Reservations for Hawaiian home lands.

Of these four purposes, domestic water use is implicated in three of the current revocable permits: RP Nos. S-7088 to Mr. Lindner, and S-7234 and S-7267, both to Wood Valley Water and Farm Cooperative. The six remaining RPs are for agricultural use or hydroelectric power generation. With respect to the agricultural use of water, the Hawaii Constitution provides:

The State shall conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency and assure the availability of agriculturally suitable lands.

Hawaii Constitution, Article XI, Section 3.

The public lands shall be used for the development of farm and home ownership on as widespread a basis as possible, in accordance with procedures and limitations prescribed by law.

Hawaii Constitution, Article XI, Section 10.

In staff's view, making irrigation water available to farmers and ranchers promotes agricultural use of public land and water.<sup>3</sup> It also allows for the local production of food, supporting the goal of food sustainability and food security for Hawaii. It may also translate into lower prices for consumers when produce does not have to be shipped to Hawaii from outside of the state. Any tension between identified public trust uses of water and the constitutional mandates above will be resolved in the process of issuing water leases, because section 171-58, HRS, requires the joint development of a water reservation to support current and future DHHL homestead needs.

The hydroelectric use of water allows utility companies to provide clean energy to domestic and commercial users. This method of energy production also supports Hawaii's Clean Energy Initiative, which sets goals for the state to achieve 100 percent clean energy by 2045 coming from locally generated renewable sources. Further, those hydroelectric projects that return water to the same stream or other body of water from which it was drawn are considered non-consumptive. Although hydroelectric projects are not an identified public trust use of State waters, the public trust concerns will be addressed in the processing of the water lease applications under Section 171-58, HRS.

---

<sup>3</sup> Under Section 171-1, HRS, the term "public lands" is defined to include water.

### Charging for Water

The rent or fee to charge for water use is another issue. Standard appraisal methodologies may not work well in establishing a charge for water. There are few comparables that an appraiser could look at, and other types of appraisal methodology are ill-suited for determining a cost to charge for consuming a resource. It is even more difficult to appraise the non-consumptive use of water involved in hydroelectric uses.

In recent months, Land Division staff has met with DHHL, OHA and the Office of Environmental Quality Control (OEQC) regarding the processing of water lease applications. All agencies are interested in devising a method of charging for the use of water in a way that will help to sustain the resource. On September 15, 2016, the agencies met with three economics professors from the University of Hawaii to discuss possible methodologies for valuing the water and assessing charges for its use.

As an interim measure, staff recommends keeping the current rents in place for 2017, with the exception of those permits that currently pay less than a base rent of \$40 per month, which is the lowest rent the Board generally approves under its nominal rent policy of May 13, 2005. Revocable Permit Nos. S-7054 to Kapapala Ranch, S-7234 to Wood Valley Water and Farm Cooperative, S-7310 to East Kauai Water Users' Cooperative, and S-7432 to Edmund C. Olson, Trustee of the Edmund C. Olson Trust No. 2 will be impacted by this increase.

The parties holding the nine water permits covered by this submittal have all submitted applications for water leases as indicated in Exhibit 3. A review of the files shows the permittees are compliant with the permit terms including payment of rent, posting of liability insurance, and reporting on water usage where required. Attached as Exhibit 5 is a spreadsheet summarizing water usage reports. Only EKWUC is not in compliance with the water usage reporting requirements under its permit. However, EKWUC is working with the Commission on Water Resource Management to implement a water usage reporting system.

Staff believes that a one-year holdover of these permits is appropriate under Section 171-58, HRS and Act 126. Apart from DHHL and OHA, agency comments were not solicited for this action since the permits are limited term holdovers, and as all permit holders subject to this approval have applied for water leases there will be numerous opportunities for government agencies and general public to provide input.

### RECOMMENDATION: That the Board:

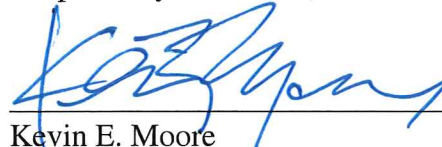

1. Find that the holdover of the revocable permits listed in Exhibit 3 is consistent with the public trust doctrine; and
2. Approve the holdover of the revocable permits listed in Exhibit 3 on a month-to-month basis for another one-year period through December 31, 2017, except for permits that are in arrears of rental payment for more than 60 days and/or have

been approved for forfeiture by a separate Board action. Permits in arrears of rental for 60 days or more and/or approved by the Board for forfeiture shall not be renewed; and

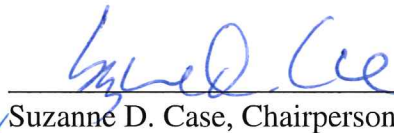

3. Approve a rent increase to a base charge of \$40 per month effective January 1, 2017 for Revocable Permit Nos. S-7054 to Kapapala Ranch, S-7234 to Wood Valley Water and Farm Cooperative, S-7310 to East Kauai Water Users' Cooperative, and S-7432 to Edmund C. Olson, Trustee of the Edmund C. Olson Trust No. 2, provided however, that the Land Board reserves and delegates to the Chairperson the right at any time to review and reestablish new rental charges for any of the revocable permits listed in Exhibit 3, to reflect an appropriate rate for the rights and privileges granted by such revocable permits and to best serve the interests of the State.

Respectfully Submitted,

Kevin E. Moore  
Assistant Administrator

APPROVED FOR SUBMITTAL:

Suzanne D. Case, Chairperson

## EXEMPTION NOTIFICATION

Regarding the preparation of an environmental assessment pursuant to Chapter 343, HRS and Chapter 11-200, HAR

Project Title: Holdover of Revocable Permits for Water Use on the Islands of Hawaii and Kauai.

Project / Reference No.: Not applicable

Project Location: Various locations on the Islands of Hawaii and Kauai

Project Description: Holdover existing revocable permits for a term of one year.

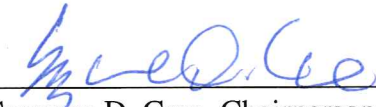

Chap. 343 Trigger(s): Use of State Land and Water

Exemption Class No.: In accordance with the Exemption List for the Department of Land and Natural Resources, approved by the Environmental Council on June 5, 2015, the subject request for issuance for right-of-entry is exempt from the preparation of an environmental assessment pursuant to Exemption Class 1, "Operations, repairs, or maintenance of existing structures, facilities, equipment, or topographical features, involving negligible or no expansion or change of use beyond that previously existing."

The holdover of existing revocable permits on State lands involves the continuation of existing uses on the lands. No change in use is authorized by the holdover.

Consulted Parties: Agencies listed in submittal.

Recommendation: That the Board find this project will probably have minimal or no significant effect on the environment and is presumed to be exempt from the preparation of an environmental assessment.

  
Suzanne D. Case, Chairperson

## A BILL FOR AN ACT

RELATING TO WATER RIGHTS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. Section 171-58, Hawaii Revised Statutes, is amended by amending subsection (c) to read as follows:

"(c) Disposition of water rights may be made by lease at public auction as provided in this chapter or by permit for temporary use on a month-to-month basis under those conditions which will best serve the interests of the State and subject to a maximum term of one year and other restrictions under the law; provided that [any]:

(1) Where an application has been made for a lease under this section to continue a previously authorized disposition of water rights, a holdover may be authorized annually until the pending application for the disposition of water rights is finally resolved or for a total of three consecutive one-year holdovers, whichever occurs sooner; provided that the total period of the holdover for any applicant shall not exceed three years; provided further that the holdover is consistent with the public trust doctrine;

1        (2)    Any disposition by lease shall be subject to  
2                disapproval by the legislature by two-thirds vote of  
3                either the senate or the house of representatives or  
4                by majority vote of both in any regular or special  
5                session next following the date of disposition;  
6                ~~[provided further that after]~~ and

7        (3)    After a certain land or water use has been authorized  
8                by the board subsequent to public hearings and  
9                conservation district use application and  
10               environmental impact statement approvals, water used  
11               in nonpolluting ways, for nonconsumptive purposes  
12               because it is returned to the same stream or other  
13               body of water from which it was drawn, and essentially  
14               not affecting the volume and quality of water or biota  
15               in the stream or other body of water, may also be  
16               leased by the board with the prior approval of the  
17               governor and the prior authorization of the  
18               legislature by concurrent resolution."

19        SECTION 2.    The department of land and natural resources  
20        shall prepare and submit annual reports to the legislature no  
21        later than twenty days before the convening of each of the

1 regular sessions of 2017, 2018, 2019, and 2020. The reports  
2 shall include:

- 3 (1) The status of applications to continue previously-  
4 authorized dispositions of water rights;  
5 (2) Actions taken on the applications during the fiscal  
6 period of July 1, 2016, to November 30, 2016, fiscal  
7 year 2016-2017, fiscal year 2017-2018, and fiscal year  
8 2018-2019, respectively; and  
9 (3) Any relevant recommendations for legislative action or  
10 appropriation.

11 SECTION 3. Statutory material to be repealed is bracketed  
12 and stricken. New statutory material is underscored.

13 SECTION 4. This Act shall take effect upon its approval,  
14 and shall apply to applications for a lease to continue a  
15 previously authorized disposition of water rights that are  
16 pending before the board of land and natural resources on the  
17 effective date of this Act or filed with the board of land and  
18 natural resources on or after the effective date of this Act,  
19 but prior to June 30, 2019; provided that:

- 20 (1) This Act shall be repealed on June 30, 2019, and  
21 section 171-58(c), Hawaii Revised Statutes, shall be

H.B. NO. 2501  
H.D. 2  
S.D. 2  
C.D. 1

1 reenacted in the form in which it read on the day  
2 prior to the effective date of this Act; and  
3 (2) Any holdovers first applied for under this Act prior  
4 to June 30, 2019, may be reauthorized, as provided in  
5 section 1 of this Act, beyond June 30, 2019.

APPROVED this 27 day of JUN, 2016

*David Ige*

GOVERNOR OF THE STATE OF HAWAII

Water Revocable Permits on Hawaii and Kauai as of September 2016

Doc No.	Permittee Name	Location	State Land Use District	Lease From	Lsed Area (acres)	Annual Rent	Comments
RP7054	KAPAPALA RANCH	Kau, Hawaii; (3) 9-8-1:13,9,10; 9-7-1:1	Conservation	10/13/1995	23,408.46	Greater of \$156 or \$5 per million gallons per year	This revocable permit overlies General Lease No. S-5374 to Kapapala Ranch, which results in the large acreage being stated in the "Lsed Area (acres)" column. The RP does not identify a separate land area for the RP by itself. Permittee applied for a water lease on 8/29/16 for watering livestock and wildlife (consumptive use).
RP7088	LINDER, JEFFREY S.	Kawaihau, Kauai; (4) 4-9-001:001	Conservation	10/1/1996	125	2,414.04	Permittee applied for a water lease on 9/1/16 for county water supply and irrigation purposes (consumptive use).
RP7234	WOOD VALLEY WATER & FARM COOP	Kau, Hawaii; (3) 9-7-001:001	Conservation	8/1/2000	0.006	Greater of \$156 or \$5 per million gallons per year	Permittee applied for a water lease on 8/24/16 for public drinking water, irrigation and livestock watering purposes (consumptive use). The water source is not currently developed.
RP7267	WOOD VALLEY WATER & FARM COOPERATIVE	Kau, Hawaii; (3) 9-7-001:001	Conservation	4/1/2004	0	265.2	Permittee applied for a water lease on 8/24/16 for public drinking water, irrigation and watering livestock purposes (consumptive use).
RP7310	EAST KAUAI WATER USERS COOP.	Kawaihau, Kauai; (4) 4-1, 2, 4, 6, 7, 8	Conservation	4/1/2002	6,700.00	Greater of \$156 or \$5 per million gallons per year	Permittee applied for a water lease on 8/26/16 for irrigation and other purposes (consumptive use).

Water Revocable Permits on Hawaii and Kauai as of September 2016

RP7340	KAUAI ISLAND UTILITY COOPERATIVE	Lihue, Kauai; (4) 3-9-001:001	Conservation	1/1/2003	0	37,320.00	Permittee applied for a water lease on 7/20/01 for hydroelectric power generation purposes. Use considered consumptive because water is not returned to the stream from which it was drawn.
RP7426	KUAHIWI CONTRACTORS, INC.	Kau, Hawaii; (3) 9-7-1:1,15	Conservation	11/1/2006	0	924	Permittee applied for a water lease on 8/3/16 for livestock watering purposes (consumptive use).
RP7432	EDMUND C. OLSON, TRUSTEE OF THE EDMUND C. OLSON TRUST No. 2	Kau, Hawaii; (3) 9-6-6; 9-6-7; 9-6-8; 9-7-1	Conservation	3/1/2007	1.82	Greater of \$156 or \$5 per million gallons per year	Permittee applied for a water lease on 8/9/16 for irrigation and livestock watering purposes (consumptive use).
RP7463	HAWAII ELECTRIC LIGHT CO., INC.	South Hilo, Hawaii; (3) 2-6-009	Conservation	12/1/2010	0	19,692.00	On 8/24/16, permittee submitted an application for a water lease and other necessary dispositions for hydroelectric power generation purposes (non-consumptive).
