Division of Forestry and Wildlife
Honolulu, Hawaii 96813

January 13, 2017

Chairperson and Members
Board of Land and Natural Resources
State of Hawaii
Honolulu, Hawaii

Land Board Members:

SUBJECT: REQUEST TO CONSOLIDATE THE PETITIONS FROM ELIZABETH RAGO, KAHUKU COMMUNITY ASSOCIATION, MAKANI PONO 'O KAHUKU, AND KENT FONOMOANA WITH THE CONTESTED CASE HEARING REGARDING BOARD ACTION OF NOVEMBER 10, 2016, AGENDA ITEM C-1, *REQUEST FOR APPROVAL OF INCIDENTAL TAKE LICENSE AND HABITAT CONSERVATION PLAN FOR NA PUA MAKANI WIND ENERGY PROJECT ON THE ISLAND OF OAHU, HAWAII*

BACKGROUND FACTS

On October 28, 2016, a Request for Approval of Incidental Take License and Habitat Conservation Plan for Na Pua Makani Wind Energy Project on the Island of Oahu, Hawaii, was on the Board of Land and Natural Resources' (Board) agenda. At the meeting, the agenda item was deferred by the Board.

On November 10, 2016, Na Pua Makani Wind Energy Project (Na Pua Makani) request for approval of a habitat conservation plan and incidental take license in connection with its wind energy project was again placed on the Board's agenda. As part of the application process for the habitat conservation plan, a public hearing was held on June 4, 2015, on the island of Oahu, to solicit comments from the public.

RECEIVED PETITIONS

No oral or written request for a contested case hearing was made prior to the end of the October 28, 2016 Board meeting.

At the November 10, 2016 meeting, Gil Rivere, on behalf of the Keep the North Shore Country organization, orally requested a contested case hearing. A written petition was transmitted to DLNR from Keep the North Shore Country on November 19, 2016, was presented to the Board on December 9, 2016 and the Board granted a contested case hearing.

At the November 10, 2016 meeting Kent Fonoimoana also orally requested a contested case.

Petition for a Request for a Contested Case Hearing
Regarding Na Pua Makani Wind Energy Project ITL/HCP

Four written petitions were transmitted to the DLNR on or about November 18 and 19. They were logged received on Monday November 21, 2016 and are attached:

- Elizabeth Rago (Attachment A)
- Kahuku Community Association through Kent Fonoimoana (Attachment B)
- Makani Pono `O Kahuku through Kent Fonoimoana (Attachment C)
- Kent Fonoimoana (Attachment D)¹

AUTHORITY FOR DESIGNATING HEARING OFFICERS

HAR § 13-1-32 (d) provides that the BLNR may conduct the Contested Case Hearing, or at its discretion, may appoint a hearing officer to conduct the hearing. HAR § 13-1-29 (a) provides that, the time for making an oral or written request and submitting a written petition may be waived by the Board.

Additionally, HRS Chapter 92-16 and Chapter 171-6 also provide that the Board may delegate to the Chairperson the authority to select the hearing officer to conduct a Contested Case Hearing.

DISCUSSION

The Board has already approved holding a contested case in connection with the petition filed by Keep the North Shore Country. This submittal is requesting the appointment of a hearing officer to conduct proceedings for that contested case hearing.

The four petitions referenced above have requested a contested case hearing on the same subject matter as the contested case for Keep the North Shore Country, namely, the habitat conservation plan and incidental take license for Na Pua Makani. It would be most efficient to consolidate these four petitions with the pending contested case for Keep the North Shore Country. Because a hearing officer is also being recommended to be appointed, it would also be more efficient to have the hearing officer determine whether the four above petitioners have standing to participate in the pending contested case.

RECOMMENDATION: That the Board:

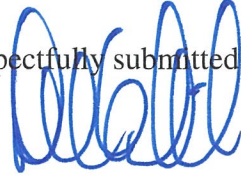

- 1) Authorize the consolidation of the attached four petitions with the contested case hearing for Keep the North Shore Country approved on December 9, 2016;
- 2) Authorize the appointment of a Hearing Officer to conduct all hearings relevant to the subject petition(s);

¹ Kent Fonoimoana filed three petitions in his own name. All three petitions are being considered as one consolidated petition for purposes of this item.

Petition for a Request for a Contested Case Hearing
Regarding Na Pua Makani Wind Energy Project ITL/HCP

- 3) Direct the Hearing Officer to determine whether the four petitioners, Elizabeth Rago, Kahuku Community Association, Makani Pono 'O Kahuku, and Kent Fonoimoana have standing to participate in the contested case hearing; and
- 4) Delegate to the Chairperson the authority to select a hearing officer to preside over the consolidated contested case.

Respectfully submitted,

David G. Smith, Administrator
Division of Forestry and Wildlife

APPROVED FOR SUBMITTAL:

Suzanne D. Case, Chairperson
Board of Land and Natural Resources

- Attachment A: Petition for a Contested Case Hearing (Elizabeth Rago)
Attachment B: Petition for a Contested Case Hearing (Kahuku Community Association)
Attachment C: Petition for a Contested Case Hearing (Makani Pono `o Kahuku)
Attachment D: Petition for a Contested Case Hearing (Kent Fonoimoana)

STATE OF HAWAII
BOARD OF LAND AND NATURAL RESOURCES

PETITION FOR A CONTESTED CASE HEARING

OFFICIAL USE ONLY	
Case No.	Date Received
Board Action Date / Item No.	Division/Office

INSTRUCTIONS:

- File (deliver, mail or fax) this form within ten (10) days of the Board Action Date to:
 Department of Land and Natural Resources
 Administrative Proceedings Office
 1151 Punchbowl Street, Room 130
 Honolulu, Hawaii 96813
 Phone: (808) 587-1496, Fax: (808) 587-0390
- DLNR's contested case hearing rules are listed under Chapter 13-1, HAR, and can be obtained from the DLNR Administrative Proceedings Office or at its website (<http://dlnr.hawaii.gov/forms/contested-case-form/>). Please review these rules before filing a petition.
- If you use the electronic version of this form, note that the boxes are expandable to fit in your statements. If you use the hardcopy form and need more space, you may attach additional sheets.
- Pursuant to §13-1-30, HAR, a petition that involves a Conservation District Use Permit must be accompanied with a \$100.00 non-refundable filing fee (payable to "DLNR") or a request for waiver of this fee. A waiver may be granted by the Chairperson based on a petitioner's financial hardship.
- All materials, including this form, shall be submitted in **three (3)** photocopies.

C. SUBJECT MATTER

17. Board Action Being Contested

Approval of incidental take license and conservation habitat plan for Napua Makani wind energy project on the island of O'ahu

18. Board Action Date

October 28, 2016

19. Item No.

C-2

20. Nature and Extent of Petitioner's Interest That May Be Affected by the Board Action

I will be directly and immediately affected by the proposed action because my home is two blocks from the proposed wind farm. The turbine flicker would adversely affect me as the flicker and the "woosh" sound being reported by my neighbors as causing symptoms of imbalance, exhaustion, ringing in ears, and sleeplessness. Furthermore, my property's value will decline 12 percent if the proposed action moves forward. I will be directly and immediately affected by the proposed action because The Hawaiian hoary bat is important to me as it provides natural pest control by eating mosquitoes in our neighborhood and by spreading seeds. Most important regarding these bats are the genealogical connection to the indigenous peoples of Hawai'i have with the Hoary bats. They are the manifestation of Kanaloa, God of the ocean and an ancestor of native Hawaiians. They are our legacy and as such, we have a responsibility to mālama them.

21. Any Disagreement Petitioner May Have with an Application before the Board

In proposing the number of take for the Hoary bats, Na Pua Makani used the take per turbine in the existing Sun Edison project to determine the proposed take for this project. However, they did so without taking into account that their proposed turbines currently stands significantly taller with blades that are significantly longer than the blades on the Sun Edison's project. The current proposal for the number of Hoary bats allowed to kill does not take into consideration that these proposed turbines have blades that are significantly longer than the turbines currently in existence in Kahuku and that since they are larger, they will kill more bats.

The proposed HCP does not provide evidence that the proposed research or the short-term Poamoho Ridge management actions would increase the population of bats on O'ahu by one bat, let alone 51 bats. The proposed removal of pigs at Poamoho Ridge, for instance, is likely to reduce mosquito prey availability, so bat numbers at the mitigation site may decline rather than increase. The proposed "mitigation" may harm the species rather than benefit it. The proposed research will not, in itself, result in any increase in bat numbers on Oahu. There is no mention of any required increases in bat detection at Poamoho Ridge in the HCP measures of success. As it's currently written, the HCP does not require the applicant to undertake any action that would increase bat numbers to offset the requested level of bat take.

The page 65, section 6.3.1 Net Benefit section of of the proposed HCP (<http://dlnr.hawaii.gov/wildlife/files/2013/09/Item-6-Na-Pua-Makani-Final-HCP.pdf>) indicates: "Funding for Hawaiian hoary bat research provides a net benefit to the species by increasing the knowledge base about the species, thus allowing for more effective mitigation and conservation efforts...". Although the proposed research could inform what this applicant could do to mitigate for take of the bat, the research in and of itself would not have a tangible benefit to a bat. The research would not increase the Oahu bat population by even one bat. If research must be completed to figure out how to mitigate for take of the bat, then that research would need to be completed and a bat conservation project based on the results of the research, with some anticipated actual benefit to the bat, would need to be incorporated into the HCP as proposed conservation actions before the HCP will meet incidental take license issuance criteria pursuant to Hawaii Revised Statute §195D-4

(g). Implementation of the actions specified in the proposed wind farm HCP, as it's currently written, would not mitigate the impacts of the take of 51 bats, would not increase the likelihood the endangered bat species will survive and recover, and would not provide a net environmental benefit to the bat. I therefore advise the Board against issuing the incidental take license based on the current draft of the HCP.

(Hawaii State Law Background Information: Pursuant to Hawaii Revised Statute §195D-4 (g) (http://www.hawaii.edu/ohelo/statutes/HRS195D/HRS_195D-4.htm), the Board may only issue an incidental take license provided that:

- (1) The applicant, to the maximum extent practicable, shall minimize and mitigate the impacts of the take;
- (2) The applicant shall guarantee that adequate funding for the plan will be provided;
- (3) The applicant shall post a bond, or deposit a sum of money in the fund created by section 183D-10.5, adequate to ensure monitoring of the species by the State and to assure that the applicant takes all actions necessary to minimize and mitigate the impacts of the take;
- (4) The plan shall increase the likelihood that the species will survive and recover;
- (5) The plan takes into consideration the full range of the species on the island so that cumulative impacts associated with the take can be adequately assessed;
- (6) The measures, if any, required under section 195D-21(b) shall be met, and the department has received any other assurances that may be required so that the plan may be implemented;
- (7) The activity, which is permitted and facilitated by issuing the license to take a species, does not involve the use of submerged lands, mining, or blasting;
- (8) The cumulative impact of the activity, which is permitted and facilitated by the license, provides net environmental benefits; and
- (9) The take is not likely to cause the loss of genetic representation of an affected population of any endangered, threatened, proposed, or candidate plant species.

22. Any Relief Petitioner Seeks or Deems Itself Entitled to

The Board should send the application back to the Endangered Species Recovery Committee for revision to incorporate the Hawaiian hoary bat mitigation required by State Law (HRS 195D

23. How Petitioner's Participation in the Proceeding Would Serve the Public Interest

The contested case provides an avenue that, when compared to litigation, may enable the HCP to come into conformance with state law in a more timely manner.

Industrial Wind Turbines Killing Culturally Significant Winged Creatures in Hawai'i

Aloha nui mai kākou,

My name is Tēvita 'Ō. Ka'ili and I am a resident of Kahuku Ahupua'a. I am also a strong advocate for clean, green, and renewable energy for our 'āina. As a cultural anthropologist and a descendant of our ancestors Tangaloa (Kanaloa), Māui, and Hina, I have become quite concerned that industrial wind turbines in Hawai'i have killed close to 100 of our culturally significant birds, bats, and moths (see chart). Many of these beautiful winged creatures are identified in the Kumulipo (Hawaiian Creation Chant) and other Polynesian creation stories as indigenous, as ancestors, as protectors, as creators, and as our elders. Some are 'aumākua (ancestral gods), makua (parent birds), keiki (children of parent birds), kia'i (guardian/caretaker birds), and others are kinolau (body forms) of principal gods in Oceania. Below is a chart of nearly 100 culturally significant winged creatures killed by the largest industrial wind turbines in Hawai'i from 2007 to 2014. This data is based on the list obtained by KITV from the U.S. Fish and Wildlife Service (Source: <http://www.kitv.com/blob/view/-/25786724/data/1/-/n01e00z/-/Windmill-kills-animals-PDF.pdf>). These are the reported numbers. It is likely that the numbers are much higher.

Based on the data, industrial wind turbines are killing 'Ōka'i (Blackburns Sphynx Moths), Kōlea (Pacific Golden Plovers), 'Iwa (Great Frigatebirds), Koa'e Kea (White-tailed Tropicbirds), Nēnē (Hawaiian Geese), Pueo (Hawaiian Owls), 'Ōpe'ape'a (Hawaiian Hoary Bats), 'Ua'u (Hawaiian Petrel), and 'Ua'u Kani (Wedge-tailed Shearwater). As you know, most of these winged creatures are 'Ōiwi (Indigenous/Native) to Hawai'i and are also recognized in the Kumulipo as kūpuna (ancestors). In the Kumulipo, the Nēnē and Pueo are kia'i, guardian/caretaker birds. The 'Iwa is a makua, parent bird, and the Kōlea and Koa'e Kae as keiki, children of parent birds. In Hawaiian tradition, the Kōlea, Pueo, and 'Ua'u are 'aumākua, deified ancestral guardians, who protect and give guidance to their descendants. The Kōlea, known as Tūli in Sāmoan and Kiu in Tongan, is identified in Sāmoan and Tongan creation stories as an embodiment of the ancestral god Tagaloa/Tangaloa – a major pan-Polynesian god who is known as Kanaloa in Hawaiian and recognized in the Kumulipo as an ancestor (KL line 615). The 'Ōpe'ape'a (Hawaiian Hoary Bat) is a kinolau (body form) of Kanaloa in Hawaiian tradition. All of these winged creatures are our relatives and legacy of our common Polynesian cultures. It is our responsibility to mālama them. The United Nations recognizes the right of Indigenous Peoples to maintain and protect their cultural heritage (UNDRIP, Article 31). I urge the Board of Land and Natural Resources to send the Napua Makani application back to the Endangered Species Recovery Committee for revision to incorporate the Hawaiian hoary bat mitigation required by State Law (HRS 195D).

Mahalo nui,

Tevita O. Ka'ili

STATE OF HAWAII
BOARD OF LAND AND NATURAL RESOURCES

PETITION FOR A CONTESTED CASE HEARING

OFFICIAL USE ONLY	
Case No.	Date Received
Board Action Date / Item No.	Division/Office

INSTRUCTIONS:

- File (deliver, mail or fax) this form within ten (10) days of the Board Action Date to:
 Department of Land and Natural Resources
 Administrative Proceedings Office
 1151 Punchbowl Street, Room 130
 Honolulu, Hawaii 96813
 Phone: (808) 587-1496, Fax: (808) 587-0390
- DLNR's contested case hearing rules are listed under Chapter 13-1, HAR, and can be obtained from the DLNR Administrative Proceedings Office or at its website (<http://dlnr.hawaii.gov/forms/contested-case-form/>). Please review these rules before filing a petition.
- If you use the electronic version of this form, note that the boxes are expandable to fit in your statements. If you use the hardcopy form and need more space, you may attach additional sheets.
- Pursuant to §13-1-30, HAR, a petition that involves a Conservation District Use Permit must be accompanied with a \$100.00 non-refundable filing fee (payable to "DLNR") or a request for waiver of this fee. A waiver may be granted by the Chairperson based on a petitioner's financial hardship.
- All materials, including this form, shall be submitted in three (3) photocopies.
