CHAPTER 343, HRS – ENVIRONMENTAL ASSESSMENT:

Pursuant to Section 11-200-8(a), Environmental Impact Statement Rules of the Department of Health, State of Hawai‘i, this disposition is exempt from requirements regarding preparation of an environmental assessment, negative declaration, or environmental impact statement as required by Chapter 343, Hawai‘i Revised Statutes, as amended, relating to Environmental Impact Statements, because the proposed action falls within Exemption Class #1, Comprehensive Exemption List for the State of Hawai‘i Department of Transportation, dated November 15, 2000, as approved by the Environmental Quality Council. Exemption #1 covers operations, repairs, or maintenance of existing structures, facilities, equipment, or topographical feature involving negligible or no expansion or change of use beyond that previously existing. The DOTA consulted with the U.S. Federal Aviation Administration as to the appropriateness of the citation of the Environmental Exemption Class from the Comprehensive list for the Department of Transportation dated November 15, 2000. In this case, the FAA concurred on the appropriateness.

REMARKS:

The Department of Transportation (DOT) has no objections to the request. The DOT and the airlines servicing Hawai‘i’s airports have a vested interest in seeing that the loading bridges are maintained and operational throughout the year. Allowing the ACH to oversee the maintenance and repair of the passenger bridges will assure that such maintenance will be conducted on a regular schedule and that repairs will be made expeditiously, since delays will adversely impact the members of ACH and their customers.

Respectfully submitted,

JADE T. BUTAY
Interim Director of Transportation

APPROVED FOR SUBMITTAL:

SUZANNE D. CASE
Chairperson and Member of the Board
