In response to Section 183D-10.5, Hawai'i Revised Statutes

Honolulu, Hawai'i

**REPORT ON THE WILDLIFE REVOLVING FUND  
FISCAL YEAR 2011**

**PURPOSE**

The goal of the Wildlife Revolving Fund (WRF) is to provide funds to manage and enhance public hunting opportunities in Hawai'i. Act 290, Session Laws of Hawai'i 1991, amended Section 183D-10.5, Hawai'i Revised Statutes (HRS) by adding a requirement for an annual report to be prepared by the Department of Land and Natural Resources (Department) on the status of the Wildlife Revolving Fund (WRF) and transmitted to the Legislature no later than twenty days prior to each regular session. The report is to include:

1. The source and application of monies deposited into the fund, including a description of the criteria and process used to determine funding priorities;
2. A description of programs and activities supported by the fund;
3. A summary of program highlights and accomplishments; and
4. A description of future program plans, including specific goals and objectives.

**FUNDS**

Section 183D-10.5 (b), HRS, provides that the following proceeds shall be retained by or transmitted to the Department for deposit in the WRF: fees for hunting licenses, game bird farmer and Commercial Hunting Preserve licenses and fees, hunting guide licenses, hunter education training programs and use of public target ranges, fines collected for hunting or wildlife law violations, bail forfeitures, sale of articles required before hunting, and related works of art. For Fiscal Year 2011 (FY 11), the major source of revenue was hunting license sales. Sources of revenues are detailed below:

Revenue continue to be low due to an appellate court ruling on December 31, 2007 which had the effect of suspending sales of the Wildlife Conservation Stamp, the Game Bird Stamp, and all tags and application fees for special hunts. Revenue did not meet the Department's authorized budget ceiling for WRF of \$686,726. New expenditures totaled \$134,324. The cash balance at the end of FY 11 amounted to \$62,922, with outstanding encumbrances of \$13,106. Unencumbered cash available for carryover totaled \$49,816.

### **FUNDING PRIORITIES**

WRF has been an important portion of the overall budget to meet obligations of state match and operating and salary expenses for game and wildlife projects. Because the major sources of revenue for WRF come from direct charges to hunters, priority is given to expenditures which benefit this user group. Presently, the appellate court ruling has halted the sale of stamps, game tags, and application fees until a formal hunting rules change can reestablish these direct assessments to hunters by species, area, and season chosen to hunt.

In budgeting for WRF, a policy of allotting at least 85% of the budget for the hunting program has been in place and followed. Up to 15% of the budget may be used for nongame and wildlife sanctuary management, for projects that may have dual benefits to game species and nongame species. Typical examples are the predator and weed control

efforts to benefit game birds in the Kapapala Cooperative Game Management Area (CGMA) and the Kīpuka ‘Āinahou Nēnē Sanctuary on the Big Island, which also benefit nēnē. Predator control activities in Kuaokalā GMA on O‘ahu were carried out with WRF monies to benefit game birds, and these activities also benefited pueo and mōlī.

Section 183D-10.5(e), HRS, also requires that the State first use WRF monies to "maximize the State's participation to secure federal funds under the Pittman-Robertson Federal Aid in Wildlife Restoration Act." Consequently, a priority was given to those expenditures that provided the state match for Pittman-Robertson (PR) projects.

The allocation of operating funds to the Department's Division of Forestry and Wildlife's (DOFAW's) Branch Offices was done on a lump sum basis to be used on eligible projects.

With the decline in hunting fee revenue, the funding available for salaries has been reduced and all recruitment for WRF positions has been frozen. The operating funds were allotted to the Branches based on the respective Branch wildlife program size and complexity, and amount of revenue generated from license fees. Discussions among wildlife staff had continued on the possible conversion of WRF-supported General Laborers to Forestry & Wildlife Technicians, but became a moot point with substantial loss of funds.

### **PROCESS USED**

1. The Department's Administrative Service Office and DOFAW coordinated to determine the amount of monies in WRF available for allocation to DOFAW's Branch Offices.
2. At the beginning of each fiscal year, a portion of the WRF budget is allocated to each DOFAW Branch Office, to Honolulu Administrative Staff for statewide projects and to the Hunter Education Program of the Department's Division of Conservation and Resources Enforcement. A portion of WRF is allocated for temporary personnel to maintain wildlife program functions, and to pay budgeted add-on salary costs to assist with wildlife projects.
3. Each Branch Office collaborates in the development of the overall annual WRF budget, to benefit the resources and resource users, all within the criteria of compliance with the purpose of WRF and the necessity to provide state-match requirements for PR projects.
4. An emphasis was placed on using WRF for essential expenditures to provide support for public hunting opportunities.
5. All expenditures are identified and coded as "WILDLIFE REVOLVING FUND: S-11-343" to facilitate tracking and accountability.

6. Expenditures complied with approved categories of expenditures for WRF as established by The Board of Land and Natural Resources on August 13, 1993 (see Attachment 1, appended).
