ITEM C- 2

Request for Approval to authorize Chairperson to approve and sign MOA DLNR/DOFAW-KHS for Wildlife Care and Rehabilitation on the Island of Kauai agreement specifically addresses the care, rehabilitation and release of three federally listed seabird species. These include the Newell's shearwater (*Puffinus auricularis newelli*), Hawaiian petrel (*Pterodroma sandwichensis*) and Band-rumped Storm petrel (*Oceanodroma castro*).

This MOA will replace the current MOA that expires in November 2018, which addresses the need for veterinary care and rehabilitation of native wildlife species not covered under the KSHCP mitigation agreement by permitting some funding to support a Wildlife Rehabilitation Technician and limited operational expenses for Kauai's SOS program. The specific native wildlife species are listed below in the agreement.

The Attorney General is in the process of reviewing the agreement as to form.

DISCUSSION:

This MOA with KHS will assure continued care, rehabilitation and release of Kauai's Nene, seabirds and waterbirds by the dedicated and trained staff of KHS.

CHAPTER 343 - ENVIRONMENTAL ASSESSMENT:

DOFAW activities to be conducted under the terms of this MOA include the rehabilitation of ESA-listed and native birds on Kauai. These are minor actions that will probably have minimal or no significant effects on the environment and are exempt from the requirement to prepare an environmental assessment in accordance with Chapter 343, HRS, and Chapter 11-200-8, Hawai'i Administrative Rules, under the Department's following exemption classes (Exemption List for the Department of Land and Natural Resources, Reviewed and Concurred Upon by the Environmental Council on June 05, 2015):

Exemption Class 1: Operations, repairs or maintenance of existing structures, facilities, equipment or topographical features, involving negligible or no expansion or change of use beyond that previously existing.

Exemption Class 5: Basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource.

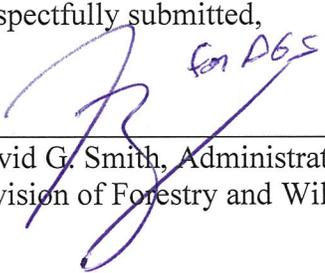

RECOMMENDATIONS:

That the Board:

1. Authorize the Chairperson to negotiate, sign, execute, and amend a Memorandum of Agreement between the Board of Land and Natural Resources and the Kauai Humane Society, subject to the Department of the Attorney General's approval as to form.
2. Approve a declaration of exemption from the requirement of Chapter 343, Hawai'i
