To the honorable Chair Suzanne Case and members of the Board,

I respectfully request that you table agenda item M-10 pending further investigation.

Specifically I request you take a look at the contract between the lease holder and the Oahu board of water supply.

It appears they are shipping large amounts of Hawaii water out of state for consumption in Asia.

Please verify their water use is compliant with the public trust doctrine as well as HRS 171-58

Mahalo for your consideration
