CHAPTER 343 - ENVIRONMENTAL ASSESSMENT:

Pursuant to Section 343-5(a)(1), HRS, an environmental assessment (EA) is not required where State or county funds are being used for the acquisition of unimproved real property. As the subject lands are unimproved, an EA is not required. Inasmuch as the Chapter 343 environmental requirements apply to Applicant’s use of the lands, the Applicant shall be responsible for compliance with Chapter 343, HRS, as amended.

ACQUISITION REQUIREMENTS:

1) Obtain an appraisal to determine the value of the properties to be acquired;
2) Provide survey maps and descriptions for the privately-owned property according to State DARGS standards;
3) Obtain a title report for the privately-owned property subject to review and approval by the Department;
4) Conduct a Phase I environmental site assessment and, if this Phase I identifies the potential for hazardous materials release or the presence of hazardous materials, conduct a Phase II environmental sampling and analysis plan and perform any and all remediation, abatement and disposal as may be warranted and as satisfactory to the
standards required by the Federal Environmental Protection Agency and/or the State Department of Health (DOH), all at no cost to the State and to the satisfaction of the Department.

BACKGROUND:

The Pua’ahala property comprises approximately 800 acres from the top of the mountain to the ocean - an entire ahupua’a. The forests here are some of the most pristine remaining in Mana’e on the Island of Moloka‘i. State acquisition of this property is a final attempt to protect these forests as well as the Paialoa wetland located on the makai side of the Property. The East Moloka‘i Watershed Partnership (EMoWP) is working with the State to protect the island’s remaining watershed forests and cultural resources from threats, as well as safeguard freshwater resources that sustain the people of Moloka‘i. This protection can only be achieved by gaining the access to manage large areas across landowner boundaries. From west to east, a contiguous network of protected areas is being establishing to encircle the island’s main mountain.

Pua‘ahala is in the center of this chain. Without acquisition, it would be a missing link in the protection of the entire region. Upon acquisition, the DLNR Division of Forestry and Wildlife (DOFAW) plans to add the lands to the State Forest Reserve and Wildlife Sanctuary systems and implement natural resource management actions across the entire ahupua’a that may include watershed protection, endangered species recovery, trails and access, reforestation, fencing, and wetland management. DOFAW plans to engage community participation to determine the appropriate management and use of this potential new forest reserve and wildlife sanctuary. Acquisition of this strategic parcel is critical for conservation on Moloka‘i for the following reasons:

A new fenced unit (Pāku‘i) that will protect roughly 2,080 acres of important watershed forest is in the process of being built (see map Exhibit B). The fence line must cross the mauka portion of the Pua’ahala parcel. Currently, without the landowner providing a right of entry for management, this proposed fence line will not be possible. Upon acquisition of the Pua’ahala property, the State will be able to complete the fence line and connect it to the existing Kapualei/Kamalo fence. Extensive community outreach, including an Environmental Assessment (EA) and Cultural Impact Assessment (CIA) were done for the Pāku‘i watershed protection project. In FY19 the State Legislature awarded $1,180,998 in Capital Improvement Project (CIP) funds to build the 5.5 mile Pāku‘i fence. Acquisition is the only option to gain access to build the Pāku‘i fence and manage the area in perpetuity.

The road access to this parcel, as well as its mountain-sea orientation, makes the management of this parcel strategic for fire prevention and control. Ownership of the lower elevation sections will provide the State the option for establishing a network of firebreaks and allow for immediate wildfire response. More than 10,000 acres of Moloka‘i’s south slope have been consumed by wildfire in the last 25 years.

Watershed protection is part of the mission of the Division of Forestry and Wildlife. Pua’ahala is a critical and contiguous watershed that significantly contributes to the ‘Ualapu’e Aquifer - designated as the “Moloka‘i Sole Source Aquifer”. This aquifer sits below Pua’ahala and
supplies water to East Moloka‘i residents for domestic (drinking) and agriculture use. The ‘Ualapu‘e Aquifer is entirely replenished by rainfall. Acquisition of Pua‘ahala will ensure the protection of the intact upland forests that help capture and store this rainfall, replenishing the underground aquifer.

Protection would also reduce erosion into the State’s longest fringing coral reef. In adjacent areas that have been protected through fencing and hoofed animal control, the recovery of native species has been dramatic. Since efforts to remove ungulates beginning in 2009, large tracts of land in the adjacent area at Kawela have recovered from less than 1% groundcover to over 75% groundcover, predominantly from passive restoration of native species. Preliminary estimates from ongoing studies at Kawela, Moloka‘i show that this management and vegetation increase can reduce sediment from six metric tons per year down to two metric tons. This type of response could occur in the lower elevation sections of the Pua‘ahala parcel with management, underscoring the importance of acquiring the entire parcel to provide benefits for the whole watershed.

The property is designated critical habitat for 44 endangered plant species. The main threats to these species are browsing and grazing by hoofed animals. Thus, the fencing of the Pāku‘i unit, which includes the upper portion of the Pua‘ahala property, will enable the protection and recovery of numerous endangered species that are found nowhere else in the world. The makai portion of the property includes Moloka‘i’s largest freshwater pond (Paialoa), which provides habitat for multiple species of endangered Hawaiian water birds, including the ae‘o, ‘alae ke‘oke‘o, and alae ‘ula. Acquisition would enable the establishment of the second wetland habitat State Wildlife Sanctuary on the island of Moloka‘i.

Moloka‘i is a rural island with a population of approximately 7,400 people. The community is excited about the State’s acquisition of the Pua‘ahala property because it will help preserve the rural character of Moloka‘i, prevent development of a scenic wilderness area, and ensure the public ownership of this high-quality area.

REMARKS:

Total Purchase Price: $3,190,000

Land Division and the Attorney General’s Office assisted DOFAW in conducting due diligence for this acquisition. The purchase price was determined by an independent appraisal conducted by Medusky & Co., Inc. dated August 31, 2019. An appraisal review conducted by ACM Consultants, Inc. dated October 21, 2019 concluded that the fair market value determined by the Medusky & Co., Inc. appraisal was reasonable, and that the appraisal report was in compliance with both the Uniform Standards of Professional Appraisal Practice (USPAP) and the Uniform Appraisal Standards for Federal Land Acquisition (UASFLA). The U.S. Fish and Wildlife Service (USFWS) accepted the market value conclusions of the appraisal and appraisal review on October 21, 2019. The acquisition is funded by grants from the USFWS and the State Legacy Land Conservation Program (LLCP) in the amounts noted in the table below:

As required by the funding programs, the warranty deed shall include language that obligates the State to manage the property in compliance with the respective grant program requirements. The deed language is included as **Exhibit E**. DOFAW will develop a comprehensive management plan, guided by community and stakeholder input, that includes thorough documentation (with maps and photos) of the resource values to be protected in accordance with the purposes of the grant award received from the Legacy Land Conservation Program (LLCP).

Seller is obligated by a prior quiet title agreement to designate access easements to neighboring kuleana. The prior agreement requires that certain kuleana be put up for sale upon execution of the easements. However, the Seller has agreed to waive this requirement. A letter from the Seller to the kuleana owners detailing the process for conveying the easements was sent to kuleana owners in 2018. Seller has successfully resolved this issue prior to conveying the Property to the State and will provide a new Title Report after the easements are recorded with Land Court. Furthermore, the State upon acquiring the property, shall not exercise any right it may have to require the sale of any of the kuleana.

Seller is also a lessee of submerged lands under General Lease (GL) S-4269 (**Exhibit D**) that is located seaward of TMK (2) 5-6-005:036. The purpose of the lease was to develop a small boat harbor and marina as part of the development of the larger Property. No development has occurred and as the Seller will divest all their assets in the area with the sale of the Property, Seller has requested a mutual termination of the submerged land lease simultaneous with the closing of the acquisition. As a result of the lease termination, Seller will have no further obligations to develop the lease area. DOFAW has consulted with Land Division and Land Division is agreeable to the lease termination provided that the lease area is returned in a condition satisfactory to Land Division.

A Phase I Environmental Site Assessment (ESA) was prepared by Lehua Environmental Inc. in April 2018 and subsequently updated in November 2018. The ESA found no **historical** recognized environmental conditions (REC), but did reveal evidence of a current REC on the

1. In accordance with Sections 13-140-24 and 13-140-30, Hawai‘i Administrative Rules, the disbursement of State grant funds from the Legacy Land Conservation Program (LLCP) requires satisfactory completion of LLCP requirements, as accepted by the Administrator, Division of Forestry and Wildlife. Key requirements for completion include the LLCP Resource Value Documentation Form and Project Accounting forms.

2. Given the extensive remediation undertaken by the Seller to clean-up the property, a new Phase I ESA was not conducted.
makai portion of the Property. The report also noted a few areas of environmental concern and potentially hazardous materials, including the presence of lead and asbestos in two abandoned residential structures and buried trash (see map Exhibit C). As a follow-up to these findings, DOFAW contracted with Lehua Environmental Inc. to produce a Hazardous Materials and Soil Screen Report outlining the recommended testing, analysis and estimated cost. The Seller agreed to pay for the recommended testing of the REC, areas of environmental concern and the clean-up. Testing and clean-up took place between February and May 2019 at a cost of over $270,000. The Seller shared the results of the testing and clean-up in a detailed Solid Waste Clean-Up and Remediation Report (July 2019). The report noted all but one site was below the DOH Environmental Action Levels (EALs) and no human or environmental consequences are anticipated. The sampling results at one site (Location 5) did indicate lead and mercury levels above the DOH EALs and soil removal (20 tons) was conducted at the site for an area approximately 400 square feet. Analytical results from the confirmatory soil samples determined that remaining concentrations of total lead and mercury were below both the unrestricted and commercial/industrial EALs. Although the samples came back below the EAL threshold, the Seller was required to file a report with the DOH Hazard Evaluation and Emergency Response Office. DOH issued a No Further Action (NFA) letter on October 24, 2019. Furthermore, the Seller has agreed to the State’s standard warranty deed, including the hazardous materials indemnification language.

Post-closing, DOFAW will remove the abandoned structures (Locations 4 and 7 Exhibit C) and dispose of the hazardous materials (lead and asbestos) in accordance with all local, State and Federal regulations, by qualified contractors. An adjacent property owner on the east side of the Property has encroachments that include a pig pen and other personal belongings located on a small portion of the sale parcel (near Location 1). DOFAW is working with the adjacent property owner for the owner to remove all encroachments from the Property and the submerged land lease area (to the extent such encroachments may be located in the lease area). The acquisition will not close until all encroachment issues are resolved to the satisfaction of both DOFAW and Land Division.

13. **Mortgage.** That, except as provided herein, the Lessee shall not mortgage, hypothecate or pledge the said premises or any portion thereof or this lease or any interest
therein without the prior written approval of the Board and any such mortgage, hypothecation or pledge without such approval shall be null and void.

14. **Indemnity.** That the Lessee will indemnify, defend and hold the Lessor harmless (1) from and against any claim or demand by third persons for loss, liability or damage, including claims for property damage, personal injury or wrongful death, arising out of any accident on the demised premises and sidewalks and roadways adjacent thereto or occasioned by any act or nuisance made or suffered on the premises, or by any fire thereon or growing out of or caused by any failure on the part of the Lessee to maintain the premises in a safe condition and will reimburse the Lessor for all costs and expenses in connection with the defense of such claims; (2) from and against all actions, suits, damages and claims by whomsoever brought or made by reason of the non-observance or non-performance of any of the terms, covenants and conditions herein or the rules, regulations, ordinances and laws of the federal, state, municipal or county governments.

15. **Costs of litigation.** That in case the Lessor shall, without any fault on its part, be made a party to any litigation commenced by or against the Lessee (other than condemnation proceedings), the Lessee shall and will pay all costs and expenses incurred by or imposed on the Lessor; furthermore, the Lessee shall and will pay all costs and expenses which may be incurred by or paid by the Lessor in enforcing the covenants and agreements of this lease, in recovering possession of the demised premises or in the collection of delinquent rental, taxes and any and all other charges.
16. Liability insurance. That the Lessee shall procure, at its own cost and expense, and maintain during the entire period of this lease, with an insurance company or companies acceptable to the Lessor, a policy or policies of comprehensive public liability insurance, if and when the same shall be required by the Board, in an amount acceptable to the Board, insuring against all claims for personal injury, death and property damage; that said policy or policies shall cover the entire premises, including all buildings, improvements and grounds and all roadways or sidewalks on or adjacent to the demised premises in the control or use of the Lessee. The Lessee shall furnish the Lessor with a certificate showing such policy to be initially in force and shall furnish a like certificate upon each renewal of such policy, each such certificate to contain or be accompanied by an assurance of the insurer to notify the Lessor of any intention to cancel any such policy prior to actual cancellation. The procuring of this policy shall not release or relieve the Lessee of its responsibility under this lease as set forth herein or limit its liability under this lease.

17. Bond, performance. That the Lessee shall, at its own cost and expense, within thirty (30) days after the date of receipt of this lease document, procure and deposit with the Lessor and thereafter keep in full force and effect during the term of this lease a good and sufficient surety bond, conditioned upon the full and faithful observance and performance by said Lessee of all of the terms, conditions and covenants of this lease, in an amount equal to two times the annual rental then payable. Said bond shall provide that in case of a breach or default of any of the terms, covenants,
conditions and agreements contained herein, the full amount of the bond shall be paid to the Lessor as liquidated and ascertained damages and not as a penalty.

18. **Lessor's lien.** That the Lessor shall have a lien on all the buildings and improvements placed on the said premises by the Lessee, on all property kept or used on the demised premises, whether the same is exempt from execution or not and on the rents of all improvements and buildings situated on said premises for all such costs, attorney's fees, rent reserved, for all taxes and assessments paid by the Lessor on behalf of the Lessee and for the payment of all money as provided in this lease to be paid by the Lessee, and such lien shall continue until the amounts due are paid.

19. **Improvements.** That the Lessee shall not at any time during said term construct, place, maintain and install on said premises any building, structure or improvement of any kind and description whatsoever, except in accordance with plans and specifications which shall be submitted to and approved by the Chairman of the Board of Land and Natural Resources, as hereinafter also provided.

20. **Development requirements.** That the Lessee shall, at its own cost and expense, within three (3) years from the commencement date of this lease, expend not less than ONE HUNDRED THOUSAND AND NO/100 DOLLARS ($100,000.00) in the development and construction of the small boat harbor and marina, all in accordance with plans and specifications which shall be submitted to and approved by the Chairman of the Board of Land and Natural Resources, and which shall conform to all laws, ordinances, rules and regulations applicable thereto:
(a) Preliminary plans. Preliminary design sketches shall be submitted to the Chairman within ten (10) days following the commencement date of this lease.

(b) Final plans and specifications. Final plans and specifications for all construction and on-site improvements, together with dredging, landfill, grading and landscaping plans, shall be submitted to the Chairman within twenty (20) days following the commencement date of this lease.

Development and construction of the small boat harbor and marina shall commence within six (6) months following the date of approval by the Chairman of the final plans and specifications. All submerged lands to be reclaimed hereunder shall be reclaimed at the Lessee's own cost and expense, and title thereto shall remain in the Lessor.

21. Repairs. That the Lessee shall, at its own expense, keep, repair and maintain all buildings and improvements now existing or hereafter constructed or installed on the demised premises in good order, condition and repair, reasonable wear and tear excepted.

22. Utility and sewer lines and services. That the Lessee shall, at its own expense, bring or cause to be brought to the premises such utility and sewer lines and services as may be necessary or required. Further, the Lessee shall be responsible for the construction of all on-site utilities in accordance with laws and ordinances of the State of Hawaii and the County of Maui applicable thereto; provided, that all on-site utility lines shall be located underground.
No failure, delay or interruption in the providing of such lines and services shall relieve or be construed to relieve the Lessee of any of its obligations hereunder or shall be or construed to be an eviction of the Lessee, or shall constitute grounds for any diminution or abatement of the rentals, fees or charges provided for herein, or grounds for any claim by the Lessee against the Lessor for damages, consequential or otherwise.

23. **Access.** That the Lessee shall, at its own cost and expense and in accordance with applicable ordinances of the County of Maui, construct a road providing vehicular and pedestrian access to the premises from Kamehameha V Highway. The general public shall be permitted full and unrestricted access to the premises over said road, and over such rights-of-way to the premises as the Chairman shall otherwise designate without prejudice to the Lessee.

24. **Signs.** The Lessee may install, place, use and maintain advertising, directional and/or identification signs at or upon said premises, but the number, general type, size, design or location of any such signs shall be subject to the prior written approval of the Chairman.

25. **Bond, improvement.** That the Lessee shall, within thirty (30) days after the date of receipt of this lease document, procure and deposit with the Lessor a surety bond in the amount of FIFTY THOUSAND AND NO/100 DOLLARS ($50,000.00), acceptable to the Chairman, which bond shall name the State as obligee, conditioned upon the faithful observance and performance of the improvement and development requirement contained herein, the completion of such improvements free from all liens and claims and that the Lessee shall save and hold
the State harmless from all liens, suits, actions or damages arising out of, caused by or attributable to such work performed pursuant to said improvement and development requirement.

26. **Insurance.** That the Lessee will, at its own expense, at all times during the term of this lease, keep insured all buildings and improvements erected on the land hereby demised in the joint names of Lessor, Lessee and Mortgagee (if any) as their interests may appear, against loss or damage by fire, including perils specified in the extended coverage endorsement and in an amount equal to the maximum insurable value thereof, in a company or companies approved by the Lessor, and will pay the premiums thereon at the time and place the same are payable; that the policy or policies of insurance shall be made payable in case of loss to the Lessor, Lessee and Mortgagee (if any) as their interests may appear, and shall be deposited with the Mortgagee (if any); and that any proceeds derived therefrom in the event of total or partial loss shall be immediately available to, and as soon as reasonably possible, be used by the Lessee for rebuilding, repairing, or otherwise reinstating the same buildings in a good and substantial manner according to the plans and specifications approved in writing by the Chairman; **provided, however,** that with the approval of the Lessor, the Lessee may surrender this lease and pay the balance owing on any mortgage and the Lessee shall then receive that portion of said proceeds which the unexpired term of this lease at the time of said loss or damage bears to the whole of said term, the Lessor to retain the balance of said proceeds.

The Lessee shall furnish to the Lessor and Mortgagee (if any) with a certificate showing such policy or policies
to be initially in force and shall furnish a like certificate upon each renewal of such policy or policies, each such certificate to contain or be accompanied by an assurance of the insurer to notify the Lessor and Mortgagee (if any) of any intention to cancel any such policy or policies, prior to the actual cancellation.

27. Surrender. That the Lessee shall and will at the expiration or sooner termination of this lease peaceably and quietly surrender and deliver possession of the demised premises to the Lessor, together with all buildings and improvements of whatever name or nature, now on or hereafter erected or placed upon the same, in good order and condition, reasonable wear and tear excepted.

IT IS HEREBY UNDERSTOOD AND AGREED BY AND BETWEEN THE PARTIES AS FOLLOWS:

26. Docking fees, etc. That the Lessee shall have the right to set the rates for docking and mooring fees, boat slip rentals and other maritime activities for which rates are customarily established, subject, however, to the approval of the Chairman.

29. Mortgage. That upon due application and with the written consent of the Lessor, the Lessee may mortgage this lease or any interest therein or create a security interest in the demised premises. If the mortgage or security interest is to a recognized lending institution in either the State of Hawaii or elsewhere in the United States, such consent may extend to foreclosure and sale of Lessee's interest at such foreclosure to any purchaser, including any mortgagee, without regard to whether or not the purchaser is qualified to lease,
own or otherwise acquire and hold the land or any interest therein. The interest of the mortgagee or holder shall be freely assignable. The term "holder" shall include an insurer or guarantor of the obligation or condition of such mortgage, including the Department of Housing and Urban Development through the Federal Housing Administration, the Federal National Mortgage Association, the Veterans Administration, the Small Business Administration, Farmers Home Administration, or any other Federal agency and their respective successors and assigns or any lending institution authorized to do business in the State of Hawaii or elsewhere in the United States; provided, that the consent to mortgage to a non-governmental holder shall not confer any greater rights or powers in the holder than those which would be required by any of the aforementioned Federal agencies.

30. Breach. That time is of the essence of this agreement and if the Lessee shall fail to yield or pay such rent or any part thereof at the times and in the manner aforesaid, or shall become bankrupt, or shall abandon the said premises, or if this lease and said premises shall be attached or otherwise be taken by operation of law, or if any assignment be made of the Lessee's property for the benefit of creditors, or shall fail to observe and perform any of the covenants, terms and conditions herein contained and on its part to be observed and performed, and such failure shall continue for a period of more than sixty (60) days after receipt by Lessee of a written notice of such breach or default delivered by the Lessor by personal service, registered mail or certified mail to the Lessee at its last known address and to each mortgagee or holder of record having a
security interest in the demised premises, the Lessor may, subject to the provisions of Section 171-21, Hawaii Revised Statutes, at once re-enter said premises or any part thereof, and upon or without such entry, at its option, terminate this lease without prejudice to any other remedy or right of action for arrears of rent or for any preceding or other breach of contract; and in the event of such termination, all buildings and improvements thereon shall remain and become the property of the Lessor.

31. **Right of holder of record of a security interest.**

In the event the Lessor seeks to forfeit the interest created by this lease, each recorded holder of a security interest may, at its option, cure or remedy the breach or default, if the same can be cured or remedied, by the payment of money or, if such is not the case, by performing or undertaking in writing to perform all of the terms, covenants and restrictions or conditions of this lease, capable of performance by the holder, as determined by the Board, within sixty (60) days from the date of receipt of the notice hereinabove set forth, or within such additional period as the Lessor may allow for good cause, and add the cost thereof to the mortgage debt and the lien of the mortgage. Upon failure of the holder to exercise its option, the Lessor may: (a) pay to the holder from any monies at its disposal, including the special land and development fund, the amount of the mortgage debt, together with interest and penalties, and secure an assignment of said debt and mortgage from said holder or if ownership of such interest or estate shall have vested in such holder by way of foreclosure, or action in lieu thereof, the Lessor shall be entitled to the conveyance of said interest or estate upon
payment to said holder of the amount of the mortgage debt, including interest and penalties, and all reasonable expenses incurred by the holder in connection with such foreclosure and preservation of its security interest, less appropriate credits, including income received from said interest or estate subsequent to such foreclosure; or (b) terminate the outstanding interest or estate subject to the lien of such mortgage, without prejudice to any other right or remedy for arrears of rent or for any preceding or other breach or default and thereupon use its best efforts to redisplay of the land affected thereby to a qualified and responsible person who will assume the obligation of the mortgage and the debt thereby secured; provided, that a reasonable delay by the Lessor in instituting or prosecuting any right or remedy it may have hereunder shall not operate as a waiver of such right or to deprive it of such remedy when it may still hope otherwise to resolve the problems created by the breach or default. The proceeds of any redisplay effected hereunder shall be applied, first, to reimburse the Lessor for costs and expenses in connection with such redisplay, second, to discharge in full any indebtedness owing the Lessor in connection with such interest or estate terminated as aforesaid, and the balance, if any, shall be paid to the owner of such interest or estate.

32. Condemnation. That, if at any time, during the term of this lease, any portion of the demised premises should be condemned for public purposes by the State or any county or city and county or any governmental agency or subdivision thereof, the rental shall be reduced in proportion
to the value of the portion of the premises condemned. The Lessee shall be entitled to receive from the condemning authority the proportionate value of the Lessee's permanent improvements so taken in the proportion that it bears to the unexpired term of the lease; provided, that the Lessee may, in the alternative, remove and relocate its improvements to the remainder of the lands occupied by the Lessee. The foregoing rights of the Lessee shall not be exclusive of any other to which Lessee may be entitled by law. Where the portion so taken renders the remainder unsuitable for the use or uses for which the land was demised, the Lessee shall have the option to surrender this lease and be discharged and relieved from any further liability therefor; provided, that, the Lessee may remove the permanent improvements constructed, erected and placed by it within such reasonable period as may be allowed by the Lessor.

33. Right to enter. The Lessor shall have the right to itself and to the agents and representatives of the county in which said demised premises are situated, to enter and cross any portion of said premises for the purpose of performing any public or official duties; provided, however, in the exercise of such rights, the Lessor shall not interfere unreasonably with the Lessee or Lessee's use and enjoyment of the premises.

34. Inspection by prospective bidders. The Lessor shall have the right to authorize any person or persons to enter upon and inspect the demised premises at all reasonable times following a published notice for the proposed disposition of the same for purposes of informing and apprising such person or persons of the condition of said lands preparatory to such proposed disposition; provided, however,
that any such entry and inspection shall be conducted during reasonable hours after notice to enter is first given to the Lessee, and shall, if the Lessee so requires, be made in the company of the Lessee or designated agents of the Lessee; provided, further, that no such authorization shall be given more than one year before the expiration of the term of this lease.

35. Acceptance of rent not a waiver. That the acceptance of rent by the Lessor shall not be deemed a waiver of any breach by the Lessee of any term, covenant or condition of this lease, nor of the Lessor's right of re-entry for breach of covenant, nor of the Lessor's right to declare and enforce a forfeiture for any such breach, and the failure of the Lessor to insist upon strict performance of any such term, covenant or condition, or to exercise any option herein conferred, in any one or more instances, shall not be construed as a waiver or relinquishment of any such term, covenant, condition or option.

36. Extension of time. That notwithstanding any provision contained herein to the contrary, wherever applicable, the Board may for good cause shown, allow additional time beyond the time or times specified herein to the Lessee, in which to comply, observe and perform any of the terms, conditions and covenants contained herein.

37. Justification of sureties. Such bonds as may be required herein shall be supported by the obligation of a corporate surety organized for the purpose of being a surety and qualified to do business as such in the State of Hawaii, or by not less than two personal sureties, corporate or individual, for which justifications shall be filed as provided
in Section 78-20, Hawaii Revised Statutes; provided, however, the Lessee may furnish a bond in like amount, conditioned as aforesaid, executed by it alone as obligor, if, in lieu of any surety or sureties, it shall also furnish and at all times thereafter keep and maintain on deposit with the Lessor security in certified checks, certificates of deposit (payable on demand or after such period as the Lessor may stipulate), bonds, stocks or other negotiable securities properly endorsed, or execute and deliver to said Lessor a deed or deeds of trust of real property, all of such character as shall be satisfactory to said Lessor and valued in the aggregate at not less than the principal amount of said bond. It is agreed that the value at which any securities may be accepted and at any time thereafter held by the Lessor under the foregoing proviso shall be determined by the Lessor, and that the Lessee may, with the approval of the Lessor, exchange other securities or money for any of the deposited securities if in the judgment of the Lessor the substitute securities or money shall be at least equal in value to those withdrawn. It is further agreed that substitution of sureties or the substitution of a deposit of security for the obligation of a surety or sureties may be made by the Lessee, but only upon the written consent of the Lessor and that until such consent be granted, which shall be discretionary with the Lessor, no surety shall be released or relieved from any obligation hereunder.

38. Waiver, modification, reinsertion of bond provision. Upon substantial compliance by the Lessee of the terms, covenants and conditions herein contained on its part
to be observed or performed, the Lessor at its discretion may waive or suspend the performance bond and/or improvement bond requirements or modify the same by reducing the amount thereof; provided, however, that the Lessor reserves the right to reactivate or reimpose said bond and/or bonds in and to their original tenor and form at any time throughout the term of this lease.

39. **No partnership created.** It is understood and agreed that the Lessor is not, and has no intention of, participating in the business of the Lessee named herein either as a partner, joint venturer or otherwise; nor shall the percentage method of computing the rent to be paid hereunder be construed to indicate any such intention and the Lessor shall in no wise be liable for any debt, obligation or other liability of the Lessee for any reason whatsoever.

40. **Consents by Lessor.** Such consents or approvals as may be required by this lease to be obtained by the Lessee from the Lessor, the Board, the Chairman, or any of their respective representatives, shall not be unreasonably or arbitrarily withheld.

41. **Representations.** The Lessee does hereby covenant, agree and affirm that it has entered into this lease after an inspection and examination of the demised premises and that no statement or representations have been made by the Lessor and that this lease states and includes the entire agreement between the parties.
