This Environmental Assessment was prepared by Wilson Okamoto Corp. for the State of
Hawai'i, Department of Transportation, Airports Division, in part to evaluate the
environmental effects of the recommended Kalaeloa Airfield Master Plan to meet existing
and forecast general aviation demands.

The proposed action falls within the following Exemption:

Section 11-200.1-15 (c) (1) Operations, repairs, or maintenance of existing
structures, facilities, equipment, or topographical features, involving minor
expansion or minor change of use beyond that previously existing.

This request would qualify under the above exemption because the Applicant would be using a portion of an existing hangar building for the storage and maintenance of aircraft, which does not require any changes beyond what is currently existing.

The DOTA consulted with the U. S. Federal Aviation Administration (FAA) as to the appropriateness of the citation Chapter 11-200, Hawaii Administered Rules entitled, “Environmental Impact Statement Rules,” dated December 18, 2018. The FAA concurred on the appropriateness.

REMARKS:

HRS, relating to Permits, and 261-7, HRS, relating to Operation and Use Privileges, the Department of Transportation proposes to issue a month-to-month revocable permit to Juan E.
