RECOMMENDATION: That the Board

1. Declare that, after considering the potential effects of the proposed disposition as provided by Chapter 343, HRS, and Chapter 11-200.1-15, HAR, this project will probably have minimal or no significant effect on the
environment and is therefore exempt from the preparation of an environmental assessment.

2. Authorize the issuance of a right-of-entry permit to the Department of Transportations, Highways Division covering the subject area under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:

A. The standard terms and conditions of the most current right-of-entry permit form, as may be amended from time to time;

B. Address all concerns noted in Exhibits D and E and coordinate access to the State Lands with both the Waimanalo Health Center and City and County of Honolulu Waimanalo Fire Department prior to start of project.

C. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

D. Authorize the Chairperson to issue future right-of-entries to the Applicant in relation to its modification of existing driveways from Kalanianaole Highway.

Waimanalo, Koolaupoko, Oahu, Hawaii
Tax Map Keys (1) 4-1-009: 279 and 282
Driveways "A" and "F" Adjustments

In connection with the subject project, the State of Hawaii, Department of Transportation, Highways Division (DOT) is proposing to improve Kalanianaole Highway, portion of Tax Map Keys (1) 4-1-009: 279 and 282. Current public records show that the Department of Land and Natural Resources (DLNR) is the landowner and you are the lessee.

For your information, the DOT requested to modify the existing driveway and improve the transition of the driveway fronting the DLNR’s property to connect to the new sidewalk at a higher elevation and to ensure a smooth transition to the State highway. The modified driveway will be constructed with asphalt paving and concrete as indicated on the enclosed Property Adjustment Plans.

The portion we requested from the DLNR are shown on the enclosed plans. The work will be done by the DOT’s contractor and the disturbed areas will be returned to a condition similar to that which existed, with reasonable wear and tear expected, prior to the State’s work. The proposed project is currently scheduled to commence November 2020 and the improved area will remain in the DLNR’s possession after the project is completed.

RE: Request for Comments – Issuance of Right-of-Entry Permit to Department of Transportation, Highways Division on Lands Encumbered by General Lease No. 5056, Waimanalo, Ko‘olaupoko, Oahu, Tax Map Key: (1) 4-1-009. Portions of 279 and 262.

Aloha Ms. Miyashiro,

Thank you for the notification of a request for a Right-of-Entry from the Department of Transportation impacting portions of Parcel 279 and 262 and the opportunity to provide the following comments.

1. Exhibit A, Parcel 279, New Driveway “A” – The driveway provides an entrance for our employees and patients to access the employee parking lot and patient services. Our hours of operation are Monday – Friday, 8:00am – 5:00pm and Saturdays, 8:00am – 12:00pm. There are a few staff who start prior to 8:00am. Access may be limited to 1 entry/exit route, but at no time during operating hours can access be completely eliminated at this driveway.

2. Exhibit B, Parcel 262, Driveway “F” – This driveway leads to our patient parking lot and access for deliveries and lab pick-up. As above, hours of operations are Monday – Friday, 8:00am – 5:00pm and Saturdays, 8:00am – 12:00pm. This parking lot also does COVID-19 testing via Park and Test (as marked by the reserved stalls). At no time during operating hours can access be eliminated.

3. Exhibit B, Parcel 262, Reconstruct Existing Portion of Walkway to match new Back of Sidewalk – There is a utility box near this area (Attachment 1) and concrete pad. All of the utilities (power, communications, cable, water, sewer) come in and out of the property near the HECO transformer. All should be deep enough, however having DOT or its contractors mark the locations of the pipes/conduit underground before trenching would be helpful. The shallowest is 18” below grade.

Please maintain proper slopes and grades where repaving or replacing of the concrete walkways will occur so that the transitions are smooth; and return to a similar condition any disturbed areas or paint (traffic flow arrows) (Attachment 2), as appropriate.

Providing a schedule of activities (fronitr our sites) to Waimanalo Health Center would be useful for our providers and staff. If the activity noise is loud, we may have to adjust patient appointment schedules as telehealth services are provided in the offices on the second floor facing Makalapu‘u Rd.

Mahalo for moving forward with installing sidewalks fronting our organization, we are grateful for your diligence, timeliness, and opportunity to provide comment. Please feel

Aloha Mike,

No, sorry for missing this...

From the facility perspective, we are concerned about 2 things:

1. Ensuring the transition from the existing elevations to the newly-constructed areas do not negatively impact the departure angle (vertical clearance from our rear bumper to the ground) of our fire apparatus.
2. Ensuring that during the construction phase, access for emergency response is provided 24/7 by either phasing the work so only one driveway is worked on at a time or by bridging excavated areas with steel road plates.

Mahalo,
Capt. Mal
