I Micah Gauthier, would like to submit testimony on behalf of TMK (3) 2-2-050-080. Also would like to get more information regarding property taxation fees and explanation of why they exist (sub leases from Hawaiian Homes, my understanding is that DHHL leaser pay \$1.00 per year, with many commercial and state funded operations to show proof, Also where do these funds go?

Would also like reasonings behind statements officials of dlNr have made in regards to "any improvements made to building, will result in rent increase", statements like this put tenant in impossible position to do business in safe manner and has hindered progress. Also making requirements set in place by dlNr impossible to fulfill.

I will be attempting to join from either my personal HP computer, or from my android phone.
