**Statement For Record**

We are the long-term adjacent neighbors living at 312 Poopoo place (Parcel 430020480000) to the King family residence at 320 Poopoo place (Parcel 430020530000). Per discussion with Don King, this statement is made in support of his application to DLNR to allow driveway access and off-street parking to his residence. We have no financial interest or gain in making this statement and our relationship to the Kings is purely as their neighbor. They are the owners of conservation land on the hillside border of our property which is not affected by his plan and application for driveway access and off-street parking.

The Kings are excellent neighbors and sensitive to our privacy and use of our own hillside driveway that currently begins immediately adjacent to and in front of the Poopoo Place streetside border of their own property. By not having off street parking, his family members must park in a very confined area that creates hazard to the Garbage Collectors, our visitors, those working at our home, and our family. Almost all of the "other" residents on Poopoo Place have off street parking forcing the Kings to park on street which causes parking congestion in front of their house and our own. Allowing them to have off street parking and easier access to their hillside home clearly is beneficial to our driveway entrance/exit and improves the safe use of our only access road to all our properties, particularly for children in the street.

If you have any questions regarding this statement, please do not hesitate to contact us.

RE     Agenda item K-1 February Board meeting  
       Don and Julianne King TMK 4-3-002:001 OA 22-13

To the Board of Land and Natural Resources,

We are neighbors of Don and Julianne King, living just a few houses away from them. They have discussed with us about their application for a permit for a driveway adjacent to their house at 320 Po'opo'o Place. We understand that their existing temporary driveway was built without the proper permits and that they are subject to fines as well as delays in getting permits to construct a permanent driveway. We are writing this letter to support the Kings in their effort to minimize fines and get approval to construct a permanent driveway.

The Kings have lived in the neighborhood for over 20 years, and have always been good neighbors. They are quiet, friendly, and respectful. The temporary driveway they built may have been done without permits, but it hasn't caused anyone any problems of any kind. The King's house is at the end of a dead end road, and the driveway will not border any neighbor's property, so there is no negative impact of a driveway on any neighbors.

As you know, off street parking is essential for everyone in our area, as on street parking is banned M-F during the day and also on 3 day weekends. Also, they have an adult son with autism who has Department of Health helpers coming to their house at various hours of the day. Without a driveway, there would be nowhere legal for the family or the helpers to park, or any way for their elderly mother who uses a wheelchair to get to the house. Please take this into account when assessing a penalty for unpermitted use.

We request the Board of Land and Natural Resources consider these issues regarding the Kings driveway application and fines, and to allow them to reapply immediately for a permanent driveway, and to allow them to use the temporary driveway until the permit is issued and work is completed.

Sincerely,

Paul and Karen Mayer
