REMARKS:

Hui Maka‘āinana o Makana is a 501(c)(3) nonprofit organization chartered in 1999 with a focused place-based mission dedicated to perpetuating and teaching the skills, knowledge, and practices of our kupuna through the interpretation, restoration, care, and protection of the natural and cultural resources within Hā‘ena State Park. Since its inception until the issuance of the current RP in July 2021, the Hui has worked closely with DSP under a formal stewardship agreement to help improve Hā‘ena State Park and care for the natural and cultural resources found there. Through many thousands of hours of volunteer work, the Hui has transformed the tangled jungle of invasive trees which had grown up and covered the land into a healthier cultural landscape. The Hui was also the driving force in establishing the first Community Based Subsistence Fishing Area (CBSFA) in the entire State and currently works closely with the Division of Aquatic Resources (DAR) in its ongoing management. Over the past five plus years, the Hui has worked to prepare for the opportunity to manage Hā‘ena SP, culminating with the issuance of this RP for expanded management activities a year ago. This
Revocable Permit has provided an opportunity to gain experience, build capacity and may serve as a foundation for a long-term cooperative community and DSP management relationship as expressed in the Master Plan for Hā'ena SP.

The Hui contracts with The Hanalei Initiative (THI) for shuttle service. THI was established in the fall of 2018 with the mission to identify and solve the immediate and long-term community and environmental needs of Hanalei and Kaua‘i’s north shore. THI has three main areas of focus, parks and environment, transportation, and economic development that align with the Hui’s mandate. With a grant from the County of Kauai, THI operated a partially integrated shuttle service that served the north shore community and visitors to Hā'ena SP until the pandemic required its operations to shut down in March 2019. The Hui has managed the restart of the shuttle service with THI since July 2021. This relationship has provided the Hui with the ability to fully integrate a shuttle service as part of its overall management of Hā'ena SP under this RP.

Under the shuttle-based model, DSP receives all entry fees as rent. However, if the Hui does not provide for a shuttle service, rent will be split ninety percent (90%) to DSP and ten percent (10%) to the Hui of net operating income (NOI).

The Hui has not had a lease, permit, easement or other disposition of State lands terminated within the last five years due to non-compliance with such terms and conditions and therefore, DSP recommends approval of the continuance of Revocable Permit SP002 pursuant to the terms above which, by this reference, are incorporated herein, on a month-to-month basis and for a one-year period ending July 10, 2023.

RECOMMENDATION:

1. Authorize the continuation of Revocable Permit SP0002 pursuant to the terms above which, by this reference, are incorporated herein, on a month-to-month basis and for a one-year period ending July 10, 2023.

Respectfully submitted,
