REMARKS:

Over the years, numerous mooring permit holders at the Lahaina SBH have built shade structures on State lands adjacent to their slips. These structures, which range in size 92 square feet to 215 square feet, consist of metal rod frames and tarp-like overhead coverings. The Division of Boating and Ocean Recreation (DOBOR) was aware that the shade structures had been installed but no formal disposition for the use of the fast lands had been given.

Staff recommends the Board approve to issuance of a revocable permit to Linnline Marine, Inc. for the use of state lands for the purpose of proving a shade structure. Since the commercial use permits associated with these structures have a term not to exceed one year, and must be renewed annually, staff believes that revocable permits are the appropriate disposition in this instance. Staff further believes that there is no need for the mooring permits and revocable permits to be coterminous, as each may be terminated within 30 days.

RECOMMENDATION:

That the Board of Land and Natural Resources:

1. Declare that, after considering the potential effects of the proposed disposition as provided by Chapter 343, HRS, and Chapter 11-200.1, Hawaii Administrative Rules, this project will probably have minimal or no significant effect on the environment and is therefore exempt from the preparation of an environmental assessment.
2. Authorize issuance of a Revocable Permit to Linnline Marine, Inc. at Lahaina SBH under the terms and conditions cited above, which are by this reference, incorporated herein and further subject to the following:
 - a. The standard terms and conditions of the most current Revocable Permit form, as may be amended from time to time; and

- b. Review and approval by the Department of the Attorney General.
- c. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.
