DCCA VERIFICATION:

Place of business registration confirmed:	YES <u>X</u>	NO ___
Registered business name confirmed:	YES <u>X</u>	NO ___
Applicant in good standing confirmed:	YES <u>X</u>	NO ___

JUSTIFICATION FOR REVOCABLE PERMIT:

The issuance of a revocable permit is a short-term measure which will allow staff to test the market to determine if it's practicable to seek the sale of lease at public auction for a

biofuel facility at this and other recreational harbor locations.

REMARKS:

At its meeting on August 13, 2021, under agenda item J-4, the Board approved the issuance of a revocable permit to Pacific Biodiesel Logistics, LLC for a mobile fueling station at the Maalaea Small Boat Harbor.

In February 2022, Pacific Biodiesel Logistics, LLC was merged into Pacific Biodiesel Technologies, LLC.

The fueling station began operations in June 2022, well past the revocable permit commencement date of December 1, 2021, due to several factors.

The location of the mobile biodiesel fueling station has been relocated to a different area within the harbor (see Exhibit A-2) due to noise concerns from its operation on the nearby condominiums. The opening was further delayed by delivery of the unit and calibration of its pumps.

For these reasons, staff is therefore requesting that the rental for RP 117 from December 1, 2021 through May 30, 2022 be waived.

Staff is requesting the cancellation of RP 117 to Pacific Biodiesel Logistics, LLC and the waiver of the Phase I environmental site assessment, and reissuance of an updated Revocable Permit to Pacific Biodiesel Technologies, LLC under the same terms and conditions.

The monthly rental presently at \$115 per month increased to \$118.50 as of July 1, 2022. The security deposit is equal to twice the monthly rental.

The applicant has not had a lease, permit, easement, or other disposition of State lands terminated within the last five years due to non-compliance with such terms and conditions.

RECOMMENDATION:

That the Board of Land and Natural Resources:

1. Declare that, after considering the potential effects of the proposed disposition as provided by Chapter 232, HRS, and Chapter 11-200.1, HAR, this project will probably have minimal or no significant effect on the environment and is therefore exempt from the preparation of an environmental assessment.
2. Approve the cancellation of RP 117 to Pacific Biodiesel Logistics, LLC and the waiver of the Phase I environmental site assessment, and the reissuance of a new Revocable Permit to Pacific Biodiesel Technologies, LLC, at Maalaea

Small Boat Harbor for a mobile fuel station on the terms and conditions cited above, subject to the following:

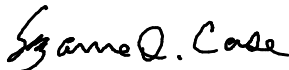

- a. The standard terms and conditions of the most current revocable permit form as may be amended from time to time.
- b. Review and approval by the Department of the Attorney General; and
- c. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State.

Respectfully Submitted,

EDWARD R. UNDERWOOD, Administrator
Division of Boating and Ocean Recreation

APPROVED FOR SUBMITTAL:

SUZANNE D. CASE, Chairperson
Board of Land and Natural Resources
