Pursuant to section 171-52, HRS, a remnant is defined as "a parcel of land economically or physically unsuitable or undesirable for development or utilization as a separate unit by reason of location, size, shape, or other characteristics." The subject parcel has been determined to be a remnant by this definition for the following reasons:

1) The parcel is a discontinued abandoned ditch.

The State parcel identified by TMK: (4) 4-6-027:025 is an abandoned ditch. Applicant is requesting to purchase the portion of the ditch that abuts the Applicant's fee simple property.

Various neighboring private landowners have made similar requests to purchase portions of the same ditch parcels that abut their respective private properties. Most recently, Land Board approved the sale of remnant (abandoned ditch) to Gregory L. Tacbian and Cosie M. Tacbian, Kapaa, Kawaihau, Kauai, Tax Map Key: (4) 4-6-026: portion of 001 on July 24, 2020 under agenda item D-1.

Applicant has not had a lease, permit, easement, or other disposition of State lands terminated within the last five years due to non-compliance with such terms and conditions.

Various government agencies and interest groups were solicited for comments.

**Project / Reference No.:** 22KD-081

**Project Description:** The applicants are requesting to purchase a portion of a

their abutting private property.

Chap. 343 Trigger(s): Use of State Land

Exemption Class No. and Description:

In accordance with Hawaii Administrative Rules (HAR) § 11-200.1-15 and the Exemption List for the Department of Land and Natural Resources reviewed and concurred on by

the Environmental Council on November 10, 2020, the subject request is exempt from the preparation of an environmental assessment pursuant to General Exemption

Type 1, Part 1 that states, "Operations, repairs or

maintenance of existing structures, facilities, equipment, or topographical features, involving minor expansion or minor change of use beyond that previously existing," and Item 37 that states, Item 44 that states "Transfer of title to land".

**Cumulative Impact of Planned Successive Actions** in Same Place Significant?:

No. Staff believes there are no cumulative impacts involved with the sale of the remnant.

**Action May Have Significant Impact on Particularly Sensitive Environment?:** 

No. There are no sensitive environmental issues involved with the sale of the remnant.

**Analysis:** 

The proposed action is the transfer of title in a State-owned remnant to a private owner. In the past, several similar segments of the subject remnant were sold to abutting owners. The dispositions have not resulted in known significant impacts to the natural and environmental resources in the area. As such, staff believes that the proposed disposition would involve negligible or no expansion or change in sue of the subject area beyond that

previously existing.

**Consulted Parties:** County of Kauai (COK) Planning Department, COK Public

> Works Department, State Historic Preservation Division, State of Hawaii (SOH) Department of Forestry and Wildlife, SOH Commission on Water Resource Management, and

SOH Office of Hawaiian Affairs.

**Recommendation:** That the Board find this project will probably have minimal or

> no significant effect on the environment and is presumed to be exempt from the preparation of an environmental assessment.
