

STATE OF HAWAII  
DEPARTMENT OF LAND AND NATURAL RESOURCES  
Division of Forestry and Wildlife  
Honolulu, Hawaii 96813

August 11, 2023

Chairperson and Members  
Board of Land and Natural Resources  
State of Hawaii  
Honolulu, Hawaii

Board Members:

SUBJECT:

REQUEST DELEGATION OF AUTHORITY TO THE  
CHAIRPERSON TO ACCEPT TRANSFER OF FUNDS FOR THE  
POUHALA MARSH RESTORATION AND ENHANCEMENT  
PROJECT

AND

REQUEST DELEGATION OF AUTHORITY TO THE  
CHAIRPERSON TO PROCURE, AWARD, AND ENTER INTO  
PROFESSIONAL SERVICE CONSULTANT AND  
CONSTRUCTION CONTRACTS FOR IMPLEMENTATION OF  
THE POUHALA MARSH RESTORATION AND ENHANCEMENT  
PROJECT, PHASE I AND II

BACKGROUND

The primary goal of the Pouhala Marsh Wetland Restoration and Enhancement Project is to provide a habitat for waterbird nesting, foraging, and loafing while recovering wetland habitat, watershed function, and native plant communities. Secondly, to continue to foster community involvement, stewardship and to provide educational opportunities to community groups, schools, and the public.

The Pouhala Marsh Wetland Restoration and Enhancement Project will be accomplished in two phases, over five years. Phase I will be the construction of an eight-acre restoration pond. Phase II will be the expansion of available waterbird habitats and wetland ecosystems through standard operations and maintenance activities. Phases I and II will complement and supplement the work that is already being done within current habitat areas—expansion, restoration, enhancement, and creation of wetland habitats and ecosystems.

The project provides major benefits to the endangered waterbird species in the Pearl Harbor basin. Restoration and enhancement of wetland habitat, in a manner that promotes nesting and rearing activities, is a key initiative in species recovery. The project will also benefit local area students, community stewards and the public – recovery actions focused on species protection allows for higher levels of access to sites. An Environmental Assessment for the project was completed and accepted by the BLNR in 2018 (Exhibit A).

Funds from the consent decree regarding the Chevron pipeline oil spill into Waiau Stream and Pearl Harbor on May 14, 1996, will be used to construct the restoration ponds and enhance the existing wetland ecosystem. The use of monies from the fund must be approved by the fund's trustees by way of resolution.

#### DISCUSSION:

To complete the planning, design, and construction of the Project, the Division of Forestry and Wildlife is seeking approval to accept the funds and implement the Project. Upon receipt of funds, the Division of Forestry and Wildlife, will complete all the necessary State and County compliance and permitting requirement for the project, which will likely require professional planning and design services that DOFAW would procure via contract.

All procurement actions will be made in accordance with the State Procurement Code, Hawaii Revised Statutes (HRS) Chapter 103D.

We request that the Board delegate authority to the Chairperson to negotiate, approve, and enter into contracts for professional planning, design, and construction services. We also request the Board to authorize the Chairperson to sign supplemental agreements for professional services and construction and to enter and execute any other documents or agreements, including but not limited to permit applications, related to the implementation of the project, if necessary and appropriate.

#### CHAPTER 343 – ENVIRONMENTAL ASSESSMENT:

An Environmental Assessment (EA) was completed by the Division of Forestry and Wildlife for the project. An EA for the Project was prepared and the Chair issued a FONSI for the Project and transmitted the EA and FONSI to the Office of Environmental Quality Control on December 21, 2018<sup>1</sup>.

RECOMMENDATIONS:

That the Board:

- 1) Delegate the Chairperson authority to accept the transfer of project funds to implement the Pouhala Marsh Restoration and Enhancement Project, including negotiating and signing an agreement for the funding; and
- 2) Delegate the Chairperson authority to procure, award, and enter contracts for the planning, design, and construction of the Project, and to negotiate and sign any supplemental contracts or other agreements necessary for the Project.

Respectfully submitted,

---

DAVID G. SMITH, Administrator  
Division of Forestry and Wildlife

APPROVED FOR SUBMITTAL:

---

### MEMORANDUM:

TO: Scott Glenn, Director  
Office of Environmental Quality Control

FROM: *ms* Suzanne D. Case, Chairperson *hlo*  
Board of Land and Natural Resources

SUBJECT: Final Environmental Assessment and Issuance of a Finding of No Significant Impact  
Pouhala Marsh Restoration Project, Phase I, Waipahu, Oahu

With this letter, the State of Hawaii, Department of Land and Natural Resources, hereby transmits the Final Environmental Assessment and Finding of No Significant Impact (FEA-FONSI) for the Pouhala Marsh Restoration Project situated on Tax Map Keys (TMK) 9-3-01:2, 9-3-01:4, 9-3-01:6, 9-3-01:12 (portions), in the Ewa District on the island of Oahu, for publication in the next available edition of *The Environmental Notice*.

The Division of Forestry and Wildlife has included copies of comments and responses that it received during the 30-day public comment period on the Draft Environmental Assessment and Anticipated Finding of No Significant Impact (DEA-AFONSI).

Enclosed is a completed Office of Environmental Quality Control Publication Form, one hardcopy of the FEA-FONSI, an Adobe Acrobat PDF file of the same, and an electronic copy of the Publication Form in Microsoft Word. Simultaneous with this letter, we have submitted the summary of the action in a text file by electronic mail to your office.

If there are any questions, please contact Jason Misaki, Wildlife Manager, at (808) 973-9786.

Sincerely,

SUZANNE D. CASE  
Chairperson

**Status (select one)** DEA-AFNSI**Submittal Requirements**

Submit 1) the proposing agency notice of determination/transmittal letter on agency letterhead, 2) this completed OEQC publication form as a Word file, 3) a hard copy of the DEA, and 4) a searchable PDF of the DEA; a 30-day comment period follows from the date of publication in the Notice.

 FEA-FONSI

Submit 1) the proposing agency notice of determination/transmittal letter on agency letterhead, 2) this completed OEQC publication form as a Word file, 3) a hard copy of the FEA, and 4) a searchable PDF of the FEA; no comment period follows from publication in the Notice.

 FEA-EISPN

Submit 1) the proposing agency notice of determination/transmittal letter on agency letterhead, 2) this completed OEQC publication form as a Word file, 3) a hard copy of the FEA, and 4) a searchable PDF of the FEA; a 30-day comment period follows from the date of publication in the Notice.

 Act 172-12 EISPN  
("Direct to EIS")

Submit 1) the proposing agency notice of determination letter on agency letterhead and 2) this completed OEQC publication form as a Word file; no EA is required and a 30-day comment period follows from the date of publication in the Notice.

 DEIS

Submit 1) a transmittal letter to the OEQC and to the accepting authority, 2) this completed OEQC publication form as a Word file, 3) a hard copy of the DEIS, 4) a searchable PDF of the DEIS, and 5) a searchable PDF of the distribution list; a 45-day comment period follows from the date of publication in the Notice.

 FEIS

Submit 1) a transmittal letter to the OEQC and to the accepting authority, 2) this completed OEQC publication form as a Word file, 3) a hard copy of the FEIS, 4) a searchable PDF of the FEIS, and 5) a searchable PDF of the distribution list; no comment period follows from publication in the Notice.

 FEIS Acceptance  
Determination

The accepting authority simultaneously transmits to both the OEQC and the proposing agency a letter of its determination of acceptance or nonacceptance (pursuant to Section 11-200-23, HAR) of the FEIS; no comment period ensues upon publication in the Notice.

 FEIS Statutory  
Acceptance

Timely statutory acceptance of the FEIS under Section 343-5(c), HRS, is not applicable to agency actions.

Supplemental EIS Determination      The accepting authority simultaneously transmits its notice to both the proposing agency and the OEQC that it has reviewed (pursuant to Section 11-200-27, HAR) the previously accepted FEIS and determines that a supplemental EIS is or is not required; no EA is required and no comment period ensues upon publication in the Notice.

Withdrawal      Identify the specific document(s) to withdraw and explain in the project summary section.

Other      Contact the OEQC if your action is not one of the above items.

**Project Summary**

Pouhala Marsh is a 70-acre coastal marsh located in Waipahu on the southwestern region of the Island of O’ahu. The U.S. Fish and Wildlife Service identified Pouhala Marsh as a protected, core wetland area with permanent habitat that supports a substantial number of waterbirds. The marsh is owned by the State of Hawai’i and the City and County of Honolulu. The State of Hawai’i, Department of Land and Natural Resources, Division of Forestry and Wildlife manages the area as a wildlife sanctuary through a land lease agreement with the City. Over the past several decades, the marsh has been degraded through siltation, waste disposal, water pollution, and alien plant invasions. The State DLNR, DOFAW proposes the creation of a wetland pond within a ±8.8-acre area in Pouhala Marsh. Wetland restoration would provide a naturally functioning ecosystem with suitable habitat for four endangered Hawaiian waterbirds, including the Hawaiian Moorhen, Hawaiian Stilt, Hawaiian Duck, and Hawaiian Coot. Restoration of the site would allow for environmental education programs and opportunities, such as vegetation identification, avian surveys, and water quality studies.
