Regarding K-4 Anderson Trust Land Testimony

Aloha,

I am a resident of Palolo and I am very concerned about the remaining structure that is clearly not dismantled fully, as it poses a threat to children and other dangers of potential hazards of actions moving through that area.

As a first responder I have seen many issues with a partial demolition like this, where children especially have gotten very hurt, and caused concern and certainly a drain of resources as we had to evacuate them from difficult terrain. Furthermore, OCCLUSION has stated that the material left behind could be fire fodder.

I feel that it is the responsibility of the owner (Dominus Anderson) that put up this structure to completely demolish it and remove all waste, not only to malama the a'aina but to respect and protect our children and our community.

If I may I would like to enter a motion to gather signatures for those in our community that would like this completely removed, footings, debris, all of it, and return the land the way he found it. We are upset by the eyesore that has been left behind, and the dangers it poses. My understanding is the owner never got a permit to build it in the first place, isn't it therefore his responsibility to completely remove it?

We feel so. Thank you taking the time to hear my opinion, which I feel represents many of the members of our community.

Warmly,

Victory
