             1 – Abstain (Barnes)

**00:11:37**

**ITEM A-2**

Approval of June 27, 2025 Summary Minutes.

*Amendment:* The Board amended the comments to Item D-1 to read as follows:

“The Board determined that the FEIS is inadequate as supported by staff submittal. The Board also made the following findings:

1. The FEIS complied with the procedural requirements;
2. Regarding content requirements, the FEIS is insufficient as there is a clear lack of baseline data for the Board to make an informed decision that the impacts of the natural, historical, biological and cultural resources have not been satisfied; and
3. The DLNR comments on the draft EIS were not satisfactorily addressed in the Final EIS.

In addition to consideration of the contents of the staff submittal, the Board identified the following deficiencies:

- 1) The biological studies, both terrestrial and aquatic, do not provide information to determine impact to biological resources;
- 2) The archaeological surveys don’t cover the full extent of area that is required to allow the Board to determine the impact to historic and cultural resources;
- 3) There was insufficient consultation with Aha Moku and other key individuals;
- 4) In turn, there was not enough information for a Ka Pa’akai analysis to be conducted;
- 5) The Conservation District Use issues were not addressed;
- 6) The Groundwater issues were not addressed;
- 7) Adequately considering staff comments regarding the use of state lands for forest reserves once current leases expire;
- 8) Issue of classifying the action as a “real estate action”; and
- 9) Comments provided by DLNR staff were not sufficiently addressed in the final document.”
